

NATIONAL GUARDSMEN ON THE MARCH THROUGH GEORGIA AS WILL OWNERS PREFER TO DEFY TEXTILE STRIKE

GERMANY REJECTS SECURITY TREATY OFFERED BY PARIS

Reich Willing To Join in Accord But Fears Foreign Troops Under French Proposals "for Eastern Locarno."

SOME SORT OF PACT STILL IS HOPED FOR

Berlin Indicates Willingness To Join in Agreement Barring Use of Troops.

By JOSEPH E. SHARKEY.
(Copyright, 1934, by the Associated Press.)
GENEVA, Sept. 16.—Germany will not sign the proposed eastern security agreement—the so-called "eastern Locarno"—because she refuses to risk having French and Russian armies treading the soil of the fatherland.

Nevertheless, Germany would be willing to accept an eastern agreement embodying the idea of "collective non-aggression obligations and consultation between interested powers in periods of political crisis."

That, in brief, is what the reich told the world's powers in reply to the recommendation that she sign the French-sponsored "eastern Locarno," the Associated Press learned today.

Position Important.
Delegates to the League of Nations assembly here described the Berlin government's position as vitally important to the world peace at this moment when the political lineup of the whole world stands to be modified by Russia's election to the League, expected to take place Wednesday.

(Moscow yesterday received an accepted an invitation, signed by more than 30 League members, to join the international organization. The assembly this week will go through the formality of ratifying Russia's admission, and will approve, as well, her election to permanent place on the League council.)

In refusing to join Russia, Czechoslovakia and the Baltic states in the proposed "eastern Locarno," Berlin rejected the basic feature of the pact as drafted at Paris—the proposal that all signatories unite to lend military assistance to any signatory attacked.

Not Total Rejection.
Germany "does not wish altogether to reject the idea of multilateral pacts," they reply to the powers said.

An earnest suggestion was added to the effect that if other governments wish to pursue this idea, "stress be laid not on an agreement for immediate military assistance in case of war but rather upon other methods of securing peace."

German circles here said the reich prefers an agreement for consultation with submission of conflicts to peace tribunals without commitment to extend immediate military assistance.

Statesmen here predicted that Russia's election to the League would be followed immediately by resumption of active negotiations for an "eastern Locarno."

They regarded the German reply, while shattering France's dream of a powerful military pact, as not excluding the possibility of some security agreement.

**Army Flyer Is Killed
When Bomber Crashes**

CLEVELAND, Ohio, Sept. 16.—(AP)—An army bomber crashed and burst into flames at the municipal airport here today, killing Second Lieutenant H. S. Bear, 28.

Marriage Rumor Links Juliana, Swedish Prince Announcement of the engagement of Princess Juliana, perhaps to one of the Swedish princes, was confidently expected in many quarters today to be made Tuesday at the opening of The Netherlands parliament.

Royalist leagues were preparing ovations for Queen Wilhelmina and the princess on a larger scale than ever before.

NEW JEWISH RABBI, ILL, PLUNGES TO DEATH FROM 15TH FLOOR

Rabbi Cecil Levy, 65, Said To Have Been Despondent; Elevator Operator Witnesses Fatal Leap.

Leaping from a window on the fifteenth floor of the 22 Marietta Street building, Rabbi Cecil Levy, widely-known Jewish religious leader, committed suicide shortly before 11 o'clock Sunday morning, according to police reports.

The rabbi had been in ill health for 15 weeks and was despondent, friends said. He was 65.

The death leap was witnessed by W. J. Goggins, of 404 Pulliam street, who carried the rabbi to the fifteenth floor in the elevator. The body fell 10 stories, landing on the fifth floor court roof.

Goggins told police that Rabbi Levy and a negro man, later identified as Willie Dennis, who lives in the basement of the rabbi's home at 213 Hunter street, S. E., had come to the 22 Marietta Street building early Sunday morning and were carried to the fourteenth floor. The two stayed in the hallway of that floor two hours before ringing for the elevator to bring them down, Goggins said.

MUNITIONS PROBE WILL BE SPEEDED IN FEAR OF 'GAG'

Senate Investigators Believe Lid May Be Clamped Down and Will Rush Facts Into Record.

WASHINGTON, Sept. 16.—(AP)—In the face of mounting protests against what they already have disclosed, senate munitions investigators today said they intended to stuff the record full of information in a hurry for fear outside pressure might clamp down the lid.

They expect tomorrow to add to revelations concerning shipments of war materials into Germany despite the Versailles treaty.

Evidence already put into the committee records quibbles munitions salesmen as reporting that Germany has been busy on land and sea preparing war equipment.

German Air Fleet.
Now, the committee in summoning leading American aviation company officials, hopes to lay bare the truth of reports that Germany has secretly assembled a large air fleet, in violation of the treaty.

The evidence, it was reported, will show large mysterious shipments of motors, parts and equipment to North sea ports, from which they are reported to have been bootlegged into Germany for assembly.

The committee will examine Donald L. Brown, president of C. W. Deeds, treasurer of the Pratt & Whitney Corporation, and Francis H. Love, president of the United Export Company, of the United Aircraft & Transport Corporation, about their foreign business.

Previous testimony has drawn out the Curtiss-Wright Export Corporation met some of its stiffest competition in Europe from the United Company.

Will Oppose "Gag."
"I think I need not say to you

TRAFFIC SURVEY BEFORE COUNCIL

Approval of FERA Recommendations Seen; Registration List Sought

Council this afternoon is expected to vote to ask the Georgia legislature to establish a permanent registration list for Atlanta and to approve elimination of stop signs at 73 intersections in the city.

A special council committee headed by Councilman Max M. Cuba will recommend the action looking towards the permanent registration list, and the police committee backed by nearly a score of other members of council will lead the fight to adopt the stop sign eliminations, recommended by the FERA traffic survey group.

Councilman G. Dan Bridges will have the traffic survey report adopted in toto and the council will approve the survey recommendations in order that "Atlanta may reap the benefit of the \$44,000 expenditure the federal government is making here in the first non-partisan and most scientific survey of traffic ever conducted."

**Burns Prove Fatal
To Explosion Victim**

Despite the heroic attempt of her son to extinguish a flame which enveloped her, burns she received Saturday afternoon proved fatal Sunday to Mrs. Bradley Leverett, 67, of 619 Campbell street, who died shortly after noon at Grady hospital.

Mrs. Leverett's clothing became ignited early Saturday afternoon when a can of gasoline in a closet at her home exploded when she struck a match near it. Her son, C. C. Leverett, 30, of the same address, was severely burned about the hands when he wrapped his mother in a blanket to smother the fire. He also was treated at Grady. Mrs. Leverett was rushed to the hospital in an ambulance.

Arrangements for the funeral will be announced by Avtry & Lowndes.

Gates' Daughter Hitch Hikes Into Wedding With 'Cabbie'

University President's Daughter, Missing From Western Dude Ranch, Reappears With Unemployed Husband.

BOISE, Idaho, Sept. 16.—(AP)—Mrs. Dan McCafferty, the former Virginia Ewing Gates, 22, daughter of the wealthy Dr. Thomas Gates, Philadelphia, president of the University of Pennsylvania, prepared today for a career in married life with her wrestler, mechanic husband whom she met on a hitch-hiking tour of the west.

Miss Gates disappeared from a dude ranch near Pinalo, W. A. August 14. She was found yesterday in Boise after a search for her had spread generally over the nation in which department of justice agents took part.

With her was her new husband, a former El Centro (Cal.) taxicab driver, wrestler and mechanic.

Chief of Police Tom Cribbins found the couple here. They were guests in his home last night. Chief Cribbins said the couple told him they met her wrestler, mechanic husband whom she met on a hitch-hiking tour of the west.

This morning the couple breakfasted at the Cribbins home and afterward were interviewed by newspapermen.

Asked if her husband was a "good provider," Mrs. McCafferty replied smilingly, "You bet he is." The couple said they were married in Moscow, Idaho, a university town, by the Rev. J. Edgar Punly, a Methodist minister.

McCafferty, 26, dark complexioned and curly haired, said "We just met her father, Dr. Thomas Gates, who was talking to each other, referring to the beginning of their romance."

"We are married and happy and

CANTON ATHLETE SLAIN BY ROBBER

Killer, Said To Be Atlanta, Hunted by Posse and Bloodhounds.

CANTON, Ga., Sept. 16.—Virgil Turner, 21, popular former Canton High school athlete, was shot and killed near here tonight by a man believed to have been a resident of Atlanta.

Thirty special deputies and a pack of bloodhounds were searching for the slayer late Sunday night.

Turner was shot twice by a man who told residents of Canton that he was named Green and lived in Atlanta. The man hired Turner to drive him "about four miles out to the country on the Orange road to get some girls."

His body lay some 25 yards distance from the machine. He had been dragged over the ground.

Peacock and Sheriff Lee Speer set out on the trail of the man who said his name was Green and the tracks led toward Atlanta, 60 miles away. All roads in the section were heavily guarded and the sheriff offered a \$50 reward for information leading to the capture of the slayer.

A number of residents of Canton were present when the man hired

Astor Marital Rift Is Seen In Providence Hotel Clash

NEW YORK, Sept. 16.—(UP)—It may all be coincidental, but here it was that the Astor Hotel was the scene of a marital rift, involving John Jacob Astor III and his wife in what might be a rift in their short married career.

LABOR REITERATES ARBITRATION PLAN TO BREAK STRIKE

Troops of Georgia, Carolinas Meanwhile Mobilized for Efforts To Reopen Textile Mills.

WASHINGTON, Sept. 16.—(AP)—An attempt to break the great textile strike by opening picket-closed mills under the protection of files of bayonetted troops planned tonight by southern mill operators.

In Georgia, 3,700 militiamen were mustered for strike service, while in the Carolinas some 4,000 national guardsmen were on duty, ready for the drive, scheduled for tomorrow, when the strike enters its third week.

Labor leaders here, preparing to resist the determined effort of the manufacturers, meanwhile renewed their arbitration offer so far as the silk-making branch of the industry was concerned, after rejecting an employer proposal for public hearings under the NRA.

The employer's proposition was made last night by Peter Van Horn, head of the Silk Institute, and followed by a few hours a labor demand that Hugh S. Johnson resign as recovery administrator. Laborites were provoked by a speech in which Johnson accused the United Textile Workers of breaking an agreement in calling the strike.

"The proposal of Peter Van Horn, head of the Silk Institute, that the strike issue in that industry be taken to NRA for public hearing is undoubtedly a trial balloon and it is hereby rejected flatly and unconditionally," Francis J. Gorman, national strike leader, said today.

"Not only that, but we will not join in submitting any issue to NRA as long as General Hugh S. Johnson is administrator, or occupies a position of determining influence in the recovery administration. We said

GOVERNOR GREEN TALKS WITH F. D. R.

President Remains on Astor Yacht at Scene of Races.

NEWPORT, R. I., Sept. 16.—(AP)—President Roosevelt, in the transplanted White House office aboard the yacht Nourmahal, today received late reports on the Rhode Island strike situation in a personal conference with Governor Theodore F. Green.

While waiting for the second international yacht race tomorrow with hope for stronger winds, the president also, received on board the Nourmahal, the Rhode Island strike situation in a personal conference with Governor Theodore F. Green.

Following the raid by the masked raiders the police kept all traffic from halting on the highway in front of the mill, ordering all automobiles to keep moving and forbidding pedestrians from standing on the streets.

The four car loads of raiders sped through the highway several times within the following half hour, evidently to make sure that the pickets had dispersed.

Later the raiders visited local headquarters of the textile union on Rockmart's main street, directly in front of the city hall and police station, and tore down union signs and broke out several windows.

ASTOR MARITAL RIFT IS SEEN IN PROVIDENCE HOTEL CLASH

NEW YORK, Sept. 16.—(UP)—It may all be coincidental, but here it was that the Astor Hotel was the scene of a marital rift, involving John Jacob Astor III and his wife in what might be a rift in their short married career.

It was reported in Providence, R. I., that a couple said to be the Astors quarreled in the dining room and lobby of the Providence Biltmore hotel, where they were dining.

John Jacob Astor III, 40, was reported to have been in the hotel when the quarrel broke out. His wife, Mrs. Astor, was reported to have been in the hotel when the quarrel broke out. His wife, Mrs. Astor, was reported to have been in the hotel when the quarrel broke out.

Georgians Beneficiaries In Pennsylvania Will

PHILADELPHIA, Sept. 16.—(AP)—A \$25,000 bequest to the church pension fund, New York city, to provide pensions for Protestant Episcopal church clergymen, their widows and orphans, was included in the will of Mrs. Sarah Bell Kitchen, filed for probate here.

Other bequests included \$500 to Mary Warren Home, Augusta, Ga.; \$5,000 to a niece, Bertha M. Barrett, Augusta, Ga., and \$500 to the Rev. A. M. Rich, Charleston, S. C.

STRIKE ORGANIZER JAILED AT MACON, 'INCITING' CHARGED

J. Ralph Gay Held in Bibb County Jail Under Bond of \$75,000; Two Friends Also Arrested.

MACON, Ga., Sept. 16.—(AP)—J. Ralph Gay, strike organizer in Macon for the United Textile Workers of America, was arrested here this afternoon and held in the Bibb county jail under bond of \$75,000, on three charges in a warrant sworn to and signed by H. W. Pittman, attorney general of the state.

The warrant for Gay's arrest, which was served by Deputies Oscar Harris and Luther Stevens, charges "incitement to prevent employees from going to work; intimidation to prevent an owner, manager or proprietor from hiring or employing laborers to go to work; and violation of the rioting law."

The warrant was sanctioned by Solicitor-General Charles Garrett of the Bibb superior court.

The counsel for the Bibb Manufacturing Company, the law office of Jones, Johnston, Russell and Sparks, cited excerpts from addresses delivered at textile rallies by Gay in substantiation of the warrant.

Arrested At Headquarters.
Gay was arrested at the O. R. C. hall, local labor headquarters, immediately after his return from Augusta, with his father, an employee in the Richmond county courthouse.

Gay was scheduled to make an address this evening to a textile group. Officers said Gay stated to a group of friends at the hall, who were asked about the rally tonight, that "I won't be able to be there tonight. Just carry on, boys."

Deputies said about 50 textile workers were at the O. R. C. hall at the time of the arrest, ostensibly to lay plans for the continuance of the strike in Macon.

Gay refused to make a statement at the Bibb county jail about plans to furnish bond.

After Gay's arrest, two men appeared at the county jail in an effort to intercede for the arrested textile organizer and also were arrested on charges of disturbing the peace. They were being held under bonds of \$5,000 each.

Gay, according to Halley B. Bell, attorney for the Macon labor organization, at first was held incommunicado in the county jail.

Hearing Arranged.
While Halley B. Bell, Gay's attorney and the only person Sheriff James M. Hicks Jr. would permit to talk to him, announced preparations for a commitment hearing tomorrow morning, other labor leaders said "two or three other speakers will address tonight's meeting."

Gay has notified international headquarters of the United Textile Workers of America of his arrest and bond, and said, although he did not comment on the possibility that the union would rush another organizer to the Macon area.

He will not try to make that bond, Mr. Hicks said, "but I shall institute proceedings tomorrow morning for the reduction of the bond." This

ASTOR MARITAL RIFT IS SEEN IN PROVIDENCE HOTEL CLASH

NEW YORK, Sept. 16.—(UP)—It may all be coincidental, but here it was that the Astor Hotel was the scene of a marital rift, involving John Jacob Astor III and his wife in what might be a rift in their short married career.

It was reported in Providence, R. I., that a couple said to be the Astors quarreled in the dining room and lobby of the Providence Biltmore hotel, where they were dining.

SITUATION TENSE AS TROOPS MARCH TO DANGER ZONES

Guardsmen Encamped at Cartersville, Aragon, Trion, Barnesville, Griffin and Macon as Strike Showdown Approaches.

Georgia mills and thousands of mill workers in all sections of the state this morning are moving in massed and open defiance of the national textile strike as many plants prepare to open and as thousands of Georgia national guardsmen, equipped with full issues of ammunition and gas supplies, are on duty at mills or are ready for duty to back up Governor Eugene Talma's orders to "protect the workers' inalienable right to work without intimidation."

Mill centers were tense Sunday night as the assembling of the state troops, the greatest peace-time troop mobilization in Georgia's history, focused unusual attention on the situation. Sixteen militia companies, armed with full field equipment, already were patrolling areas where trouble threatened, and under the general mobilization order other units were armed and in uniforms at their armories, ready for instant duty.

Atlanta Owners Silent.
Operators of only one mill in the Atlanta area, the Whitliff mills at Chattahoochee, have announced that the mills would reopen this morning. Other Atlanta operators either refused to say whether or not the mills would open, or stated they had not made plans to open them "for a few days yet."

All eight of the cotton mills at LaGrange, employing approximately 5,500 persons, will remain closed today, and no announcement was made of a possible date the doors of the mills there would be opened to workers who want to return to their jobs.

While the troop movement was under way Sunday night, police at Macon arrested J. Ralph Gay, identified as an organizer for the United Textile Workers of America, on several charges, including one of inciting a riot. He was held in \$75,000 bond.

Citing alleged abuses to which he says Georgia textile workers have been subjected by special deputies and others, O. E. Petty, secretary of the Georgia Federation of Labor, Sunday night issued a statement in which he condemned the arrest of Gay on what he termed "three misdemeanor charges," and holding him in jail under a \$75,000 bond.

Three Pickets Injured.
Disension which flared in the ranks of pickets at the Exposition Cotton Mills in Atlanta early Sunday morning resulted in injuries to three pickets who, after receiving treatment at Grady hospital, were arrested on charges of disorderly conduct and were held under bonds of \$100 each.

The three men, Rufus Pitts, 25, of 792 Jefferson street; Golden Singler, 24, of a Carl place address; and Nesbitt Spinks, 27, of 20 Circle street, pickets at the Woodshed gate at the Exposition mill, became involved in an argument when it was revealed, according to police reports, that Pitts was formerly a member of the Georgia national guard, Singler and Spinks, according to police reports, charged that Pitts was a spy. Pitts was cut and bruised. Spinks received a deep gash in the back of his neck, and

THOMAS DELEGATION

HEADED BY COL. SCOTT

THOMASVILLE, Ga., Sept. 16.—

Announcement has been made of the appointment of Colonel W. Fred Scott as chairman of the Thomas county delegation to the state democratic convention to be held on October 3, at Macon.

This is done at the instance of the democratic executive committee, S. W. Davis, chairman, the committee also

naming the following delegates and alternates. The delegates are W. Fred Scott, Frank L. Forrester, E. R. Jerger, Thomasville; R. W. McMillan, Schlockmeier, Alternates; Thomas K. Davis, Maigs; H. E. Banister, Coolidge; A. M. Lacy, Thomasville; Oscar (Ott) Cook, Boston.

Thomas county has four convention votes and the executive committee directs that both the delegates and alternates be vested with one-half vote each.

U. S. TO CONDEMN LAND FOR P. O. IN VALDOSTA

Proceedings Already Begun. Early Erection of Building Seen.

VALDOSTA, Ga., Sept. 16.—The government has filed condemnation proceedings against the land in this city adjoining the present federal building, and on which the addition is to be erected. This move on the part of the government gives it immediate possession of the property and obviates any delay in beginning the construction.

When the abstract was being prepared for the property it was found that many years ago a former owner of the property had given a security deed to the land as collateral for a loan. The loan was repaid, but the security deed was never cancelled at the courthouse, constituting a cloud on the title. The condemnation will remove the cloud on the title. One of the heirs of the party securing the loan lives in South Africa, and could not sign the release in time, so the shorter way of removing the cloud was adopted.

Bids for the new building will be opened in Washington next Tuesday and it is expected that the contract will be awarded almost immediately. In the meantime temporary quarters for the postoffice will be secured, several sites having already been selected as bids are being obtained from the owners on a lease for 240 days with the privilege of extending the time should the new building not be completed on scheduled time.

The sum of \$30,000 has been allocated for the site and building which gives the federal government the post-office space required, as well as expanding accommodations for other governmental and court departments.

December To Wed May

To Preserve Estate

LISBON, Portugal, Sept. 16.—

Consisted of one tax collector after another, and now the ripe age of 90 she is going to strike back.

Court permission has been given for the marriage. Senora Moreira acidly told the court that she knew she would die very shortly and that "it would be a sin if I died and all my belongings should pass over to the state's treasury, which did nothing all through my life but collect taxes."

In marrying a young man, she said, she was sure that her possessions would mean a good chance in life for him who, strong and young, might then be happier in life, despite the taxes.

The woman, who lives in the village of Adria, is quite an important landowner. She also owns a small windmill and several head of cattle.

Meeting To Open Here Today On Apprentices' Wages, Hours

William E. Patterson To Preside Over Two-Day Conference Called by Secretary Perkins.

By GLADSTONE WILLIAMS.

WASHINGTON, Sept. 16.—Secretary of Labor Frances Perkins announced here today that a regional conference on standards of hours and wages for youths apprentices to different trades and industries will be held tomorrow and Tuesday at the Piedmont hotel, Atlanta, Ga.

The Atlanta meeting will be one of a series of regional conferences in different parts of the country.

Georgia, Florida, Alabama, Mississippi, Tennessee, North and South Carolina will be represented by labor conference officers, vocational education directors and representatives of state employment services and labor departments. The Atlanta conference will be presided over by William E. Patterson, executive secretary of the committee, who has been a director of guidance and employment of Milwaukee vocational school.

"These conferences," said Secretary Perkins, "are the first step in a program to better conditions for young workers. They have been called by the federal committee on apprenticeship training in compliance with an executive order issued by President Roosevelt. The order enabled industry to employ apprentices at less than the minimum specified in codes of fair competition provided that a certificate had been obtained from an agency designated by me."

Miss Perkins named the committee and approved rules and regulations affecting apprentice training programs for industry. The minimum standard established specifies that the apprentice period shall be not less than 2,000 hours or more than 10,000 hours; that 144 hours per year must be devoted to related general and technical instruction given by public authorities and that the beginning wage paid apprentices cannot be less than 25 per cent of the basic wage rate for journeymen in the locality and the average wage rate for the apprentice training period shall not be less than 50 per cent of the journeymen's rate.

Miss Perkins further explained that in launching the program the committee would make every effort to bring about the speedy establishment of state agencies through state co-operation. These agencies will be empowered to accept and supervise approved apprentice contracts and to carry on the administrative work connected with supervising apprentice training.

This action, Miss Perkins pointed out, will meet the need of making provisions to cover the employment of youth. Safeguards are being established to prevent the exploitation of young people under any subterfuge of providing bona fide training, she said. Every contract of apprenticeship will be carefully examined by the agencies to be established in the different states.

The different states will be composed of representatives of the NEA, United States employment service, state boards for vocational education, state labor departments, employers and employees. They will be the responsible parties in issuing certificates which exempt apprentices from the minimum wages provisions of the codes.

"The federal committee is interdepartmental and represents the department of government which are most vitally concerned with the apprentice problem," Miss Perkins said. "The entire plan provides for a maximum of representation on committees and agencies by all groups vitally concerned with the problem."

Danger in Dissolution of Home

Pointed To in Sermon by Newton

"However sound its economic status may seem to be, however stable its currency, or whatever claims may be rightfully made for its national treasury; no government has ever been able to maintain its social structure and the moral fabric of its constituency. And it is upon its moral fabric that every government must depend for its strength."

Dr. Louis D. Newton in the third of a special series of sermons on the home, delivered Sunday night at the Druid Hills Baptist church.

"Of all the present dangers which, like an angry cloud, threaten the security of our national life, the very greatest, in my opinion, is the perpetrating of dissolution of the American home under the disintegrating influences of our pleasure-mad, money-mad age. I am enheartened to believe that there are many homes in Atlanta and throughout Georgia and throughout our beloved nation like unto those of which Byron, Burns and Payne sang, where obedience, reverence and modesty are taught and practiced; but at the same time there are many tokens of breakdown in our home life which any student of current affairs must acknowledge."

"Mr. Ramsay MacDonald, prime minister of Great Britain, recently said, 'The real danger in the world at the present moment is that it is blind to gathering storms.' It is blind to the gathering storms of the world when they are entering upon their last phases. My great concern is the apparent willingness of fathers and mothers to postpone doing anything

World War Veteran

To Oppose Talmadge

MACON, Ga., Sept. 16.—(UP)—W. E. Williams, World War veteran and president of the Macon co-operative labor organization, tonight announced himself an independent candidate for governor of Georgia to oppose Governor Eugene Talmadge, democratic party nominee, in the November election.

"On the requests of 5,000 people from all over Georgia who in the past 26 hours urged my friends to run me for governor, I am announcing my candidacy," Mr. Williams said tonight.

He said friends would pay his entry fee.

"My platform is better wage conditions for labor, free school books and better roads, all of which have been promised the state of Georgia for years, but they never happened," Mr. Williams said.

Mr. Williams is sergeant at arms in the Macon chapter of Disabled American Veterans and a member of the American Legion.

South Dakota Plane

Carries 3 to Death

PIERRE, S. D., Sept. 16.—(UP)—A pluming airplane carried three men to instant death here today when it nose-dived as a local student pilot was attempting to land.

Maynard Stone, 21, the pilot; Joe Depper, 48, Fort Pierre, and Don Hees, 20, Watertown, were the victims.

Witnesses said the plane went into a spin as Stone banked for a landing at an altitude of between 150 and 200 feet. The plane struck the ground in almost a vertical position.

Fighting Flares Anew

On Gran Chaco Front

ASUNCION, Paraguay, Sept. 16.—(UP)—Bolivian forces in the Carandary sector of the Chaco boreal today attacked Paraguayan positions after intense artillery bombardment, the defense ministry announced this evening, but were repulsed with heavy losses.

MILLS SEES NEW DEAL AS DEMOCRACY'S DEATH

NEW YORK, Sept. 16.—(UP)—Ogden Mills, secretary of the treasury in the Hoover administration, declared this evening that the "New Deal" government of President Roosevelt was rapidly leading the American people toward a dictatorship and the death of democracy.

Mills, speaking before the Women's National Republican Club in a Constitution Day address, declared the Rooseveltian theory of government was "the negation of the fundamental principles set forth in the constitution and of the supreme objective for which it was established."

FORMER CHAPLAIN OF LEGION IS HELD

Blackman Said To Have Sought Place for Girl in "Bath House."

KANSAS CITY, Sept. 16.—(UP)—The Rev. Earl Blackman, 51, former national chaplain of the American Legion and now head of the Kansas City youth forum, a non-sectarian organization, was booked at police headquarters tonight for investigation.

Chief of Police Robert Coffey said he had received a complaint Mr. Blackman had sought employment for an 18-year-old girl at a bath house whose proprietress and two women employees were detained also for investigation.

Mr. Blackman, after several hours of questioning, was released on \$1,000 personal bond for appearance at police headquarters Tuesday.

He said he was the victim of a "frame up."

The women gave their names as Mrs. June McGree, 33, proprietress of the bath house; Mrs. Mary Vernon and Miss Lena Chambers. Police said the women in statements said the bath house was patronized by both men and women and, police said, one of the employees said Mr. Blackman had been a patron.

Large Crowd Attends Dedication Of Buckhead's Symphonic Stadium

The new Buckhead stadium was dedicated Sunday afternoon with the first of a series of concerts to be given by the Buckhead Symphony orchestra, Enrico Leide, conductor, every Sunday afternoon in the specially built open-air symphonic stadium. The shell of the stadium is built after the plan of open-air theaters in Florida and in California, designed to afford the best in open-air acoustics for musical tone. The large crowd that greeted the Buckhead Symphony in this dedication program Sunday was a fine indication of the enthusiastic recep-

tion Atlanta is giving this new feature in local concert presentation. There is decidedly more appeal to the prospect of spending a Sunday afternoon out in the open listening to an inspiring program of orchestral music than in spending that same time inside a theater or auditorium. I believe that the creation of the Buckhead Symphony to present open-air concerts will prove to be one of the most popular and most appreciated cultural attractions of the city, and for this reason, if no other, concert-goers will dread to have Jack Frost pay his first visit.

Enrico Leide succeeded in leading his orchestra in a program that won the favor of that audience. The program, though not heavy from a symphonic viewpoint, held particular appeal for the popular classics presented were played with a new finish and a verve, and at the same time sincerity that won deserved praise. The numbers were tuneful, and Mr. Leide used his versatility in presenting old things with new interest. The program opened with "Light Cavalry Overture," by Suppe, and proceeded with "Narcissus," by Nevin; "Humoresque," by Dvorak, and the "Peer Gynt Suite," by Grieg. After intermission, "Liebestraume," Liszt, the lilting melodies of Herbert's "The Red Mill" in a musical resume, and Ponchielli's "Dance of the Hours," received commendable interpretations. Of the entire program the last number, "Dance of the Hours," was the most artistically performed and won the greatest success.

The Very Rev. Raimundo de Orives gave the invocation, and during the intermission Hon. John M. Slaton made a brief address.

—MOZELLE HORTON.

HOW PEPPY YOU FEEL DEPENDS ON STOMACH

Did you get up this morning again feeling too sick at your stomach to eat your breakfast? You ate or drank something yesterday you should have left alone, didn't you?

It's awfully hard to keep passing up the things you like ALL the time. But as long as you let your stomach go like that the excessive acidity will keep you undernourished, underweight, you can't sleep soundly, and you suffer from gas, heartburn, acid indigestion.

Excessive acidity destroys the activity of the vital gastric fluids... keeps the stomach irritated. The food you eat can't digest. You've tried many ways to get relief. But you can now really get it with the new preparation... called Placidan. Get a three-ounce package of Placidan at a drug store. Drink some water with a teaspoonful of Placidan in it several times during the day, and especially before you retire. See how quickly you will feel brighter, because the acidity will be wiped out, the stomach soothed... and the gastric fluids will become active again. At the new, lower price, the big package of Placidan costs very little.—(adv.)

Man Gravely Stabbed Says He Was Robbed

Henry Rogers, 51, of 504 East Avenue, was in a precarious condition at Grady hospital Sunday night with a stab wound in his left chest, which he told attendants at the hospital was inflicted by negroes who early Sunday morning robbed him of \$9 on Mitchell street.

Rogers made his way to the home of A. R. Jenkins, 283 Hill street, where he formerly boarded, and collapsed on the front porch, where Paul Baxter, of 963 Grant street, saw him and called an ambulance. He was unconscious when received at the hospital, but Sunday recovered consciousness long enough to tell police that he had been stabbed by negro robbers who had trailed him after seeing him give a \$10 bill in payment for a bottle of whisky and seeing him receive the change.

THE TEAM OF TWO.

I have long been envious of John Tee-Van. Not that I ever saw the man in my life, but I do know that he has been associated with William Beebe for many years in all parts of the tropics of this hemisphere. That, to be absolutely honest, is all I envy Tee-Van for, but that is enough.

This envy was given a sudden stimulus by the appearance last year of a new field book: "The Shore Fishes of Bermuda," by Beebe and Tee-Van. But for the fact that this book forms such an excellent companion piece to the volume we discussed Saturday, I would have no

real justification for referring to it in this column. There is an actual overlapping of faunas, however, in the Bermuda fishes and in those of the Atlantic coast of North America. For this reason I am justified in commending this book to your attention.

The format is identical with Beebe's work on the Atlantic coast fauna. For those of you who are familiar with the Putnam field book series, this statement is adequate proof of the excellence of the makeup of the volume. The 335 species of fishes described are figured as well in splendid line drawings. Supplementing

these black-and-white illustrations there are 21 photographs in half tone and four beautiful color plates, taken from Dr. Townsend's report dealing with changes in color of fishes. You can see from this that the book is as complete as any field book that has a right to the name can be expected to be.

But have you ever thought of the tremendous amount of work that has to be done before a volume of this sort can go to press? I do not mean in type setting and proof reading, but in the actual collecting, identifying, describing, preserving, drawing, painting and photographing that must be done. Beebe himself, if I remember correctly, refers laughingly to the tourist advertising in the phrase "Isles of Rest" currently applied to Bermuda. He says that the colony of scientists on Nonsuch find the term absurd, for their work day is measured only by their absolute limit of physical energy. Remember that Beebe has been engaged in the Bermuda probe for at least three years, and

MAYORALTY ASPIRANTS TO SPEAK AT MEETINGS

Mayorality guns are destined to command the local political arena this week as candidates in the three-cornered contest take the stump to resume their drives for votes in earnest.

Tonight will be spent in a sparring match, with Mayor James L. Key, seeking renomination, scheduled to appear at a thirteenth ward community meeting at 592 Park drive, and Alderman J. Charlie Murphy, another contestant in the mayorality setto, slated to speak along with other city candidates at the Tenth Ward Civic League meeting at the Capitol View Masonic temple. Both meetings will begin at 7:30 o'clock. Roy LeCraw, a third contender, also will speak at community gatherings.

Key speaks at 7:30 o'clock Tuesday night at the Joel Chandler Harris school, seventh ward; Murphy at the Slaton school, third ward, at 7:45 o'clock, and LeCraw at the Georgia Avenue school, second ward, at 7:30 o'clock.

A comparatively large vote in the September 26 municipal primary was forecast Sunday because of the fact that the democratic executive committee has decided that Atlantans may express their preference on whether they want daylight saving time for Atlanta between May 1 and September 1 annually, and whether they want repeal of the state bone dry law.

The committee reinstated the two issues at a special meeting Saturday night, after having stricken them at a special meeting of the committee held Thursday night.

Both are commanding much interest and are destined to bolster the number of votes which will be cast in the primary, according to observers.

URBAN LEAGUE WEEKLY BULLETIN

The Inter-Racial Good-Will Aviation Committee.

Aviation, because of its newness, its daring and unusual appeal, has proven its value as a means of establishing friendly relations between the various peoples of the world. In order to spread the spirit of inter-racial good-will and inspire the negro youth in the possibilities of aviation the inter-racial good-will aviation committee was organized for the purpose of sponsoring good-will flights by colored aviators. Julia A. Goens, of Atlantic City, N. J., is national chairman of this committee, and Ruth Waites, secretary.

Under the auspices of this committee, two good-will flights have already been completed. The first flight of the series was a round-trip trans-continental flight July, 1933; the second was a good-will flight to Canada, November, 1933.

Plans are now being laid for the third good-will flight under this committee which will be known as the Pan-American good-will flight. This project, which has the sanction of the United States bureau of air commerce, will take the aviators to the Bahamas, Cuba, Jamaica, Haiti, Porto Rico, Virgin Islands, Guadeloupe, Trinidad, British, Dutch and French Guiana, Venezuela, Colombia, the Canal Zone, Panama, Costa Rica, Nicaragua, Salvador, Honduras, British Honduras, Guatemala and Mexico, covering a course of over 12,000 miles and requiring a period of about 35 days. The flight is scheduled to begin in the latter half of September, 1934.

The aviators for this flight will be C. Alfred Anderson, of Bryn Mawr, Pa., a licensed transport pilot, and Dr. Albert E. Forsythe, of Atlantic City, N. J., a licensed private pilot. Together these colored aviators have flown over 100,000 miles. Their equipment is a Lambert 90-horsepower de luxe monoplane, which has a cruising range of 1,000 miles and a cruising speed of 120 miles per hour. The plane is owned by Dr. Forsythe and has been lent to the committee for the trip.

Efforts are now being put forth to have these aviators visit Atlanta on or before their Pan-American flight.

RALPH OLIVER BAKER DROPS DEAD AT WORK

Ralph Oliver Baker, 27, died unexpectedly Sunday morning while working in the Dahl greenhouse on Marietta road near Bolton. He resided near Smyrna.

Mr. Baker was stricken suddenly and was found unconscious by a fellow employee. An ambulance was summoned but he died before it arrived.

Surviving are his parents, Mr. and Mrs. L. O. Baker, and two brothers, Howard Baker, of Atlanta, and Harry Lee Baker, of Memphis, Tenn. A. W. & Lowndes will announce funeral arrangements.

CANDIDATE McLARAN THANKS HIS FRIENDS

Will H. McLaran, opponent of William R. Hartford for a legislative post from Fulton county in the September 12 primary, Sunday issued a statement of thanks to those who supported him and congratulations to Hartford, who won in a three-cornered contest.

The Constitution is not responsible for advertisements or for the return of unsolicited material. It is not responsible for the return of unsolicited material. It is not responsible for the return of unsolicited material.

ONE-HOUSE LEGISLATURE.
The campaign of Senator Norris for the abolition of the two-chamber form of legislature in Nebraska and the substitution of a unicameral body, made up of fewer and better-paid legislators, is creating widespread interest, not only in the west but in other sections of the country.

In Ohio, the movement, initiated by the Cincinnati Chamber of Commerce and joined in by other public and civic groups throughout the state, has received such encouragement that it is possible a constitutional amendment will be submitted to the voters in this fall's elections.

The Ohio plan calls for a single house, with a membership of 54, to serve four years and be paid \$5,000 for the full term. The proponents of the plan cite the large savings that such a legislature would effect, and stress that the members of such a body, representing larger political divisions, would generally be better qualified public leaders than is the case with the members of the average legislature as now constituted.

There can be no doubt that small legislative bodies are far more effective in the discharge of their duties than those with such large membership as to necessarily complicate their deliberations.

As in the case of Georgia, large legislative membership tends to prevent the prompt and efficient handling of matters of state-wide interest because of the time taken up by the consideration of subjects of importance only to the territory represented by individual members. Hundreds of local bills are introduced at each session of the Georgia legislature, taking up time that should be devoted to measures affecting the welfare of the entire state, and usually bringing on a congestion at the end of each session that results in lack of action on vital bills.

Georgia is not alone in this respect, and it is evident that sooner or later the states, whether through Senator Norris' plan of one-house legislatures, or in some other way, will seek to reform legislative conditions that are obstructing the orderly discharge of the duties of this branch of government.

NO PLACE FOR POLITICS.

There will be general approval of the demand by the police committee of council that the council as a whole consider the recommendations of the FERA traffic survey, in place of their being referred to the various ward delegations.

The recommendations seek to correct evils existing in our present methods of traffic control and to simplify and equalize the city-wide system so that confusing and unnecessarily conflicting conditions in the various wards will be eliminated.

The traffic control reforms sought by the survey will be of little value if they are not applied generally in every section and on every thoroughfare of the city, and council should consider them by concerted action.

Any other method of consideration means the introduction of politics into the effort to solve a problem of vital importance to every resident of the city. It will mean the danger of a continuance of the present antiquated and confusing system as the result of demands made upon individual members of council by unwise or selfish constituents willing to put their personal convenience above the good of the city as a whole.

The entire country has been impressively shocked by the recent sea tragedy in which 134 passengers of the Morro Castle lost their lives. Yet each year in Atlanta half that many men, women and children lose their lives in traffic accidents and the public maintains an attitude of indifference. So long as Atlanta continues to have a traffic control system improperly devised to meet the demands of safety, this tragic toll will continue to increase.

The reduction in the loss of life and the damage to person and property are the chief objectives of the FERA survey now being conducted. The survey, which is being made under the direction of nationally known experts, contemplates the modernization of the local traffic control system on a city-wide basis. There must be the same degree and method of control in each section of the city if the average motorist and pedestrian are to be expected to use the streets in a legal and safe manner.

The effort to increase conditions of safety on Atlanta's streets, and to speed up traffic, must not be allowed to become a political football. This will almost certainly be the result if the recommendations of the survey experts are to be considered from the standpoint of the individual wards.

Improvement in the city's traffic conditions is a vital problem that must be considered by council as a whole. It is unthinkable that the influence of ward politics may prevent the findings of the survey being given at least a fair trial.

In the current primaries 300,000 American citizens ran for office. It proves the office is seeking the man more than ever before.

The most dangerous kind of power is face powder when a wife catches some of it on her husband's coat.

THE WORLD'S WINDOW
By PIERRE VAN PAASSEN

Among the Poles.
The Poles are the kindest and the most hospitable people on earth. When you ask a man a question in Warsaw, he does not put you off with an abrupt yes or no. That is not the Polish way. He takes time to answer you. He takes time to answer you. He takes time to answer you.

Polish vodka. Of vodka the Poles have an astonishing variety of brands and grades, something in which they have the advantage over the French. In Moscow, vodka is as common as water. In Poland, it is as common as water. In Poland, it is as common as water.

Polish vodka. Of vodka the Poles have an astonishing variety of brands and grades, something in which they have the advantage over the French. In Moscow, vodka is as common as water. In Poland, it is as common as water. In Poland, it is as common as water.

THE MEANEST MAN.
If not the meanest man of recent record, the Canadian farmer convicted of sowing noxious weeds in his neighbor's garden, ranks high among those with this unenviable distinction—at least in the opinion of stern British justice.

The news report of the conviction of this miscreant—one Shannon Van Elst, of Prince Rupert, British Columbia—does not tell whether his nefarious act was brought about through jealousy, hatred or just from downright "ornerness," but whatever it may have been it resulted in the commission of what, from the remarks of the court, must be considered a cardinal sin by the farming folk of his section.

True, his act may have caused many back-breaking hours of work for his neighbor while ridding himself of the "noxious" weeds, and it may be that the flavor of some of the meals out of the garden may have been affected, but it certainly would not impress the average citizen as so heinous a crime as to justify the hope of the trial judge that "there will be 2,000 years before there is another similar case."

The average American will probably consider the excitement caused among these farmer folk by what amounts in reality to nothing more than malicious mischief as much ado about nothing. But in the incident there is a lesson Americans need to learn—that courts are to hand out justice, promptly and efficiently, no matter what the offense.

The conviction of Farmer Van Elst in a Canadian court again emphasizes the superiority of British legal procedure to that in use in most American states, where delay is the watchword, and appeal to technicalities seemingly a necessary routine.

An Illinois man caught a fish wearing spectacles. Maybe a high-pressure spectacle vendor had just been along.

There are 2,500,000 golfers in the United States. But more people than that number are endeavoring to get out of the rough.

Some politicians work overtime for the taxpayer, while others keep the taxpayers working overtime for the politicians.

The New Deal has created 8,000,000 jobs, it is estimated. But many ex-republican postmasters are still out of work.

In abolishing poverty in California, we hope Upton Sinclair hasn't promised to send it to Florida.

Yale scientist says apes react to light or sound as quickly as humans.

HEALTH TALKS
BY DR. WILLIAM BRADY

THIS GIRL BECAME BERIBERI THIN.
As long as fashion decrees the sylvan-like figure, wrote Dr. David Riesman and Harold Davidson in a paper before the College of Physicians and published in the Journal of the American Medical Association, sporadic cases of beriberi are likely to occur. They may appear in the form of a thin figure of the disease but if the true cause of the symptoms is not recognized, the trouble may be ascribed to a purely myocardial disease with inevitable failure of treatment.

Now, foolish ones, listen and we'll tell you the cause of beriberi. It is a disease of the nerves, and it is caused by a lack of vitamin B. It is a disease of the nerves, and it is caused by a lack of vitamin B. It is a disease of the nerves, and it is caused by a lack of vitamin B.

My village is really two villages in one. West of the railway tracks there is a cotton mill, surrounded by rows of little white houses in which the mill workers live.

Everybody speaks of the mill community as "the mill village," but it is inside the corporate limits of the town and there is no definite line of separation.

The mill people have their own church, but there is no "company store" and the mill children attend the public school up town.

Since the mill is one of a chain, and probably typical, an unprejudiced report of its affairs may prove enlightening in the present welter of partisan propaganda.

The mill/houses are not brick or stone, and none has central heating. Moreover, their amenities are pressing to an artist.

They are little frame houses set on pillars. But they are neat and clean; for reasons of economy they are kept in repair and freshly painted inside and out; they all have running water and sewer connection; each yard has a patch of garden, and shade trees line the streets. In construction and comfort, the houses are similar to the houses occupied by renters up town.

Whether the wages of the mill people are high or low depends on the standard used for comparison. Always and everywhere, as you know, the fixed level of wages is adjusted to the cost of living. When the Jap works for 30 cents a day, he can somehow support his family with that wage. When laborers in the Klondike got \$25 a day, a plate of fried eggs cost \$5.

No worker in this mill is under 16 years of age and none is paid less than \$12 a week. Weavers average about \$17. The loom fixers and section men make from \$18 to \$21.

But that doesn't represent a family's income. Most of the families have at least two wage earners; some of them three, four or five.

Whether low or high, these wages are above the community average. The mill workers make more than the clerks in the uptown stores, and the best-paid ones get more than our school teachers, who are required to have an A. B. degree.

Money wages, however, tell only part of the story. Whereas other workers pay a third of their income for rent, the mill people pay only 20 cents a week for each room, and this includes electricity. For water they pay a flat \$1 a month, and the mill furnishes wood and coal at cost. Uptown people work six days a week, and sometimes seven. The mill people work eight hours a day, five days a week, and loaf on Saturdays and Sundays.

All of which may explain why these people, like others in this immediate section, saw no reason to join the strike.

stout adopted a meager, monotonous exertion, and edematous swelling in the legs. Physicians thought she was suffering from heart disease. Prior to her unwise dietary adventure she had been athletic and in the best of health. There was no heart disease. This was that when a proper dietary

THE WORLD'S WINDOW
By PIERRE VAN PAASSEN

Among the Poles.
The Poles are the kindest and the most hospitable people on earth. When you ask a man a question in Warsaw, he does not put you off with an abrupt yes or no. That is not the Polish way. He takes time to answer you. He takes time to answer you. He takes time to answer you.

Polish vodka. Of vodka the Poles have an astonishing variety of brands and grades, something in which they have the advantage over the French. In Moscow, vodka is as common as water. In Poland, it is as common as water. In Poland, it is as common as water.

Polish vodka. Of vodka the Poles have an astonishing variety of brands and grades, something in which they have the advantage over the French. In Moscow, vodka is as common as water. In Poland, it is as common as water. In Poland, it is as common as water.

WHO'S RIGHT? WASHINGTON, Sept. 16.—There is a place where you should be able to find out who is right in this current argument between Messrs. Hoover, Borah, et al, on one side, and the New Dealers on the other.

That place is in the courts. It is their duty to say what is unconstitutional and what violates the rights of property owners and people.

A careful private check-up shows the courts have spoken in exactly 75 New Deal cases to date. What they have said is the worst jumble of words and ideas you ever heard. A Philadelphia lawyer could not make plausible sense out of them.

On most of the major constitutional points of the New Deal, the courts have held both ways. On the question of production control, the government was upheld in the packing case, but was defeated in the milk case. One court upheld the right to control prices in the lumber case, but another court decided that right was unconstitutional in the coal case. Decisions also have been made both ways on the minimum wage issue.

The only conclusion available at this time is that the courts apparently do not know whether or not the New Deal is constitutional or unconstitutional.

FILIBUSTER. You will not have long to wait, however. The supreme court is meeting in October. It will decide which of the lower courts were right.

The general expert legal opinion backstage here is that the New Deal will fare better in the supreme court than it did in the lower courts, although it fared very well in the lower courts. It is admitted, however, that the big court is very closely and sharply divided. There will be many warm 5 to 4 decisions. New Deal attorneys are not entirely confident.

If some of the aged conservatives on the bench, who are past the retirement age, would step out and let President Roosevelt appoint a few Rooseveltian democrats, it might be different.

However, everyone near the court here believes these conservatives are conducting what amounts to a conscientious filibuster. Apparently they are choosing to hasten the end of their own lives by working beyond their time in order to remain and vote for their principles. No one expects them to get out until they die.

SCORE. The box score of New Deal results in the lower courts is very interesting.

The government has instituted 136 cases charging violations of NRA codes. It has won 39 and lost 11. Cases instituted against the NRA number 39. The government has won 21 of these and lost 4. Grand total: Won 60 and lost 16.

The AAA has fared just as well. There have been 20 cases involving it. The government started 8 while 12 were filed by private firms challenging the AAA. Of all these the government has won 7 and lost 6.

COMFORT. When Interior Secretary Ickes rides the railroads hereafter, they will put rubber tires on the car wheels or else give him extra cushions.

That much appears to be settled as a result of a recent incident. The secretary was having a press conference the day after his return from a speaking engagement at Titusville, Pa. He complained about being shaken up on the trip, said he could get no rest, that the car wheels bounced him all over his berth. And, said Ickes: "That is the road I loaned eighty million dollars."

A news agency printed the story. When officials of the railroad saw it, they leaped to their respective office ceilings. Within an hour, they were massed in front of Ickes' door, bearing brief cases bulging with arguments about the comfort of travel on their line.

It certainly does not pay for a railroad to shake up a New Dealer these days.

SABRE RATTLING. It Duce did not send those Italian troops to northern Africa for their health. Apparently he has been reading trade reports. They show Japanese exports to British India markets in Africa increased by ten million dollars the first half of this year (as compared with last year). That is a lot in times of depression.

Italian officials have been talking about Japanese penetration in Abyssinia, which borders on Italy's African colonies. What they mean (but do not say) is that they have heard Japan intends to establish a legation at Addis Ababa, the capital of Abyssinia. Also that the Japanese have been sending trade and political missions there.

The British are just as worried as the Italians. That is one of the motives behind their conference of British admirals at Singapore. Also why they are rushing completion of that naval base. You can usually look behind a military move and find a commercial reason for it.

What makes the matter more irritating to them is the fact that Italy and Britain cannot afford to take on a war in the Far East as long as Europe is in its present excited state.

Apparently the Japanese know that.

NOTES. The extent to which the Italians are aroused about Japan can be discerned in the statement by their budget committee head, who said openly: "Japan today invades China—inspired by race hatred, she will plan tomorrow against white men." Such statements do not help to ameliorate international relations.

Chairman Garrison of the labor relations board expects to return to Wisconsin Law School next month, but the president is expected to prevail on him to remain.

The biggest mystery at the justice department is not "who shot Dillinger," but "what happened to the air mail contracts investigation?" Attorney-General Cummings refers inquirers to Special Assistant Ristine and Ristine refers them right back to Cummings.

The prize yarn at the Press Club now is the story about the Pittsburgh mayor (McNair). He was accompanied on a European trip by a newsman assigned to report his daily activities. When the reporter fell ill at sea, the mayor wrote stories about himself and filed them to the newspapers over the reporter's signature.

At the Vatican, Mayor McNair presented the pope with a Pittsburgh stogie.

HEALTH TALKS
BY DR. WILLIAM BRADY

THIS GIRL BECAME BERIBERI THIN.
As long as fashion decrees the sylvan-like figure, wrote Dr. David Riesman and Harold Davidson in a paper before the College of Physicians and published in the Journal of the American Medical Association, sporadic cases of beriberi are likely to occur. They may appear in the form of a thin figure of the disease but if the true cause of the symptoms is not recognized, the trouble may be ascribed to a purely myocardial disease with inevitable failure of treatment.

Now, foolish ones, listen and we'll tell you the cause of beriberi. It is a disease of the nerves, and it is caused by a lack of vitamin B. It is a disease of the nerves, and it is caused by a lack of vitamin B. It is a disease of the nerves, and it is caused by a lack of vitamin B.

My village is really two villages in one. West of the railway tracks there is a cotton mill, surrounded by rows of little white houses in which the mill workers live.

Everybody speaks of the mill community as "the mill village," but it is inside the corporate limits of the town and there is no definite line of separation.

News Behind the News
BY PAUL MALLON.

WHO'S RIGHT? WASHINGTON, Sept. 16.—There is a place where you should be able to find out who is right in this current argument between Messrs. Hoover, Borah, et al, on one side, and the New Dealers on the other.

That place is in the courts. It is their duty to say what is unconstitutional and what violates the rights of property owners and people.

A careful private check-up shows the courts have spoken in exactly 75 New Deal cases to date. What they have said is the worst jumble of words and ideas you ever heard. A Philadelphia lawyer could not make plausible sense out of them.

On most of the major constitutional points of the New Deal, the courts have held both ways. On the question of production control, the government was upheld in the packing case, but was defeated in the milk case. One court upheld the right to control prices in the lumber case, but another court decided that right was unconstitutional in the coal case. Decisions also have been made both ways on the minimum wage issue.

The only conclusion available at this time is that the courts apparently do not know whether or not the New Deal is constitutional or unconstitutional.

FILIBUSTER. You will not have long to wait, however. The supreme court is meeting in October. It will decide which of the lower courts were right.

The general expert legal opinion backstage here is that the New Deal will fare better in the supreme court than it did in the lower courts, although it fared very well in the lower courts. It is admitted, however, that the big court is very closely and sharply divided. There will be many warm 5 to 4 decisions. New Deal attorneys are not entirely confident.

If some of the aged conservatives on the bench, who are past the retirement age, would step out and let President Roosevelt appoint a few Rooseveltian democrats, it might be different.

However, everyone near the court here believes these conservatives are conducting what amounts to a conscientious filibuster. Apparently they are choosing to hasten the end of their own lives by working beyond their time in order to remain and vote for their principles. No one expects them to get out until they die.

SCORE. The box score of New Deal results in the lower courts is very interesting.

The government has instituted 136 cases charging violations of NRA codes. It has won 39 and lost 11. Cases instituted against the NRA number 39. The government has won 21 of these and lost 4. Grand total: Won 60 and lost 16.

The AAA has fared just as well. There have been 20 cases involving it. The government started 8 while 12 were filed by private firms challenging the AAA. Of all these the government has won 7 and lost 6.

COMFORT. When Interior Secretary Ickes rides the railroads hereafter, they will put rubber tires on the car wheels or else give him extra cushions.

That much appears to be settled as a result of a recent incident. The secretary was having a press conference the day after his return from a speaking engagement at Titusville, Pa. He complained about being shaken up on the trip, said he could get no rest, that the car wheels bounced him all over his berth. And, said Ickes: "That is the road I loaned eighty million dollars."

A news agency printed the story. When officials of the railroad saw it, they leaped to their respective office ceilings. Within an hour, they were massed in front of Ickes' door, bearing brief cases bulging with arguments about the comfort of travel on their line.

It certainly does not pay for a railroad to shake up a New Dealer these days.

SABRE RATTLING. It Duce did not send those Italian troops to northern Africa for their health. Apparently he has been reading trade reports. They show Japanese exports to British India markets in Africa increased by ten million dollars the first half of this year (as compared with last year). That is a lot in times of depression.

Italian officials have been talking about Japanese penetration in Abyssinia, which borders on Italy's African colonies. What they mean (but do not say) is that they have heard Japan intends to establish a legation at Addis Ababa, the capital of Abyssinia. Also that the Japanese have been sending trade and political missions there.

The British are just as worried as the Italians. That is one of the motives behind their conference of British admirals at Singapore. Also why they are rushing completion of that naval base. You can usually look behind a military move and find a commercial reason for it.

What makes the matter more irritating to them is the fact that Italy and Britain cannot afford to take on a war in the Far East as long as Europe is in its present excited state.

Apparently the Japanese know that.

NOTES. The extent to which the Italians are aroused about Japan can be discerned in the statement by their budget committee head, who said openly: "Japan today invades China—inspired by race hatred, she will plan tomorrow against white men." Such statements do not help to ameliorate international relations.

Chairman Garrison of the labor relations board expects to return to Wisconsin Law School next month, but the president is expected to prevail on him to remain.

The biggest mystery at the justice department is not "who shot Dillinger," but "what happened to the air mail contracts investigation?" Attorney-General Cummings refers inquirers to Special Assistant Ristine and Ristine refers them right back to Cummings.

The prize yarn at the Press Club now is the story about the Pittsburgh mayor (McNair). He was accompanied on a European trip by a newsman assigned to report his daily activities. When the reporter fell ill at sea, the mayor wrote stories about himself and filed them to the newspapers over the reporter's signature.

The biggest mystery at the justice department is not "who shot Dillinger," but "what happened to the air mail contracts investigation?" Attorney-General Cummings refers inquirers to Special Assistant Ristine and Ristine refers them right back to Cummings.

The prize yarn at the Press Club now is the story about the Pittsburgh mayor (McNair). He was accompanied on a European trip by a newsman assigned to report his daily activities. When the reporter fell ill at sea, the mayor wrote stories about himself and filed them to the newspapers over the reporter's signature.

At the Vatican, Mayor McNair presented the pope with a Pittsburgh stogie.

HEALTH TALKS
BY DR. WILLIAM BRADY

THIS GIRL BECAME BERIBERI THIN.
As long as fashion decrees the sylvan-like figure, wrote Dr. David Riesman and Harold Davidson in a paper before the College of Physicians and published in the Journal of the American Medical Association, sporadic cases of beriberi are likely to occur. They may appear in the form of a thin figure of the disease but if the true cause of the symptoms is not recognized, the trouble may be ascribed to a purely myocardial disease with inevitable failure of treatment.

Now, foolish ones, listen and we'll tell you the cause of beriberi. It is a disease of the nerves, and it is caused by a lack of vitamin B. It is a disease of the nerves, and it is caused by a lack of vitamin B. It is a disease of the nerves, and it is caused by a lack of vitamin B.

My village is really two villages in one. West of the railway tracks there is a cotton mill, surrounded by rows of little white houses in which the mill workers live.

Everybody speaks of the mill community as "the mill village," but it is inside the corporate limits of the town and there is no definite line of separation.

The mill people have their own church, but there is no "company store" and the mill children attend the public school up town.

Since the mill is one of a chain, and probably typical, an unprejudiced report of its affairs may prove enlightening in the present welter of partisan propaganda.

The mill/houses are not brick or stone, and none has central heating. Moreover, their amenities are pressing to an artist.

They are little frame houses set on pillars. But they are neat and clean; for reasons of economy they are kept in repair and freshly painted inside and out; they all have running water and sewer connection; each yard has a patch of garden, and shade trees line the streets. In construction and comfort, the houses are similar to the houses occupied by renters up town.

Whether the wages of the mill people are high or low depends on the standard used for comparison. Always and everywhere

EYES OF NATION ON LA FOLLETTES

Wisconsin Election Seen as Measure of Sentiment for Third Party.

WASHINGTON, Sept. 16.—(UP)—Sentiment for a third party headed by the La Follettes and enjoying the passive friendship of the New Deal administration will be measured Tuesday in Wisconsin's statewide primary election.

Success in Wisconsin would lead impetus to the movement for party realignment which is making itself felt throughout the nation. In neighboring Minnesota, Governor Floyd B. Olson leads the farmer-labor party, which appears to be safely in control of the state.

California offers Upton Sinclair, former socialist, as overwhelming democratic choice for the gubernatorial nomination. Senator Hiram W. Johnson, veteran progressive republican, was nominated to succeed himself by all California parties.

Senator Robert M. La Follette and his brother, Philip, head the Wisconsin progressive party ticket as assured nominees for the senate and the governorship. Democratic and republican primaries will select November opponents for the progressive slate.

Politicians are as eager for returns from Wisconsin as they were a few days ago to hear from Maine. In 1932, Wisconsin cast just over 1,000,000 votes. The effectiveness of the progressive appeal will be measured Tuesday by comparing the La Follette vote with the poll of the democratic and republican candidates.

President Roosevelt boosted the La Follette cause with kind words in his Green Bay, Wis., speech last August. The effect of this gesture was reduced somewhat by similar blessing of democratic Governor Albert G. Schmedemann, who is a candidate to succeed himself.

The La Follette bolt of the republican party which they long controlled in Wisconsin breaks a precedent of 40 years, although in 1924 the late Senator Robert M. La Follette Sr. led a national progressive party movement which was swamped in the election of President Coolidge.

"Young Bob," who succeeded his father in the senate, was one of the progressive republican senators who bolted the republican ticket in 1932. With Senator George W. Norris, republican, Nebraska; Brown cutting, republican, New Mexico, and Johnson, the younger La Follette campaigned for Mr. Roosevelt.

If things go wrong for the La Follette Tuesday, which they may not, leave public life. Mr. Roosevelt probably would name him to one of the commissions or other emergency agencies created to carry the New Deal forward.

MISSISSIPPI DEMOCRATS TO GO TO POLLS TUESDAY

JACKSON, Miss., Sept. 16.—(AP)—Although the "New Deal" is not a clear-cut issue in Mississippi's runoff primary, political eyes of the nation will be trained on the Magnolia state Tuesday when democrats will choose for their next junior senator an outspoken supporter of the Roosevelt administration or one who offers a program independent of the "New Deal."

The senatorial campaign has commanded intense interest within the state, chiefly because it has brought together two candidates with colorful political careers who are widely separated in their views.

They are Senator Hubert D. Stephens, of New Albany, veteran of 22 years' service in congress, 14 of which were spent in the senate, and Theodore G. Bilbo, of Poplarville, twice governor and the focal point of many of the state's bitterest political battles of the past two decades.

Construction Awards Increased in August

WASHINGTON, Sept. 16.—(AP)—The public works administration was advised today that August construction contract awards were ahead of July and 13 per cent above August, 1933, with public works construction accounting for the bulk of the awards.

The F. W. Dodge Corporation said in a report to Secretary Ickes, based on figures from 37 states, that publicly financed contracts rose 31 per cent from July to August and 46 per cent from August, 1933, to August, 1934.

Publicly financed awards were \$80,138,300 in August, and for the first eight months of the year totaled \$633,332,200, with private and publicly financed awards through August this year reaching \$1,063,986,800, against \$620,656,700 in the corresponding period of 1933.

GOEBBELS PLEDGES AID TO DISTRESSED GERMAN

BERLIN, Sept. 16.—(AP)—Paul Joseph Goebbels, minister of propaganda, promised today that no German will suffer "cold, hunger or want" during the coming winter.

Addressing 30,000 storm troopers assembled here, the little right-hand man to Reichsfuehrer Adolf Hitler said plans for relief work in the winter season already are well under way.

He took occasion, however, again to sound the propaganda ministry's keynote of "Spartan patriotism."

"No troubles are great enough to force us to capitulate," Goebbels exclaimed.

"No distress can force us to our knees."

KANSAS CITIAN FOUND SLAIN ON ARK. ROAD

CONWAY, Ark., Sept. 16.—(AP)—The body of a man identified as William I. Biglow, Kansas City, was found three miles south of Conway on the Little Rock highway this morning. There were two bullet holes in the head.

Biglow was identified by papers found in his pockets. Sheriff Neal Webb expressed the belief that Biglow was taken for a "ride" and robbed, after learning he registered at a Port Smith hotel last night. The key to his hotel room was found in a pocket, along with two dimes.

PLANE LANDS IN WATER,
PILOT, WOMAN RESCUED

BEAUMAR, N. J., Sept. 16.—(UP)—The pilot and his woman passenger were rescued by guards of the Belmar first aid station early tonight after their airplane dropped into the Shark river inlet and buried its nose in the mud.

The pilot was Byron Birkhimer, 23, Alhambra, Pa., and the passenger, Miss Mildred Lieberman, 18, Philadelphia. Both were treated at the Finken Memorial hospital for lacerations. After treatment they left for home.

Maury Cole Representatives Close Successful Meeting

Three leaders of the Maury Cole Company are shown in conference at the recently concluded meeting held in Atlanta. Left to right they are R. A. Workman, Atlanta district sales manager; A. H. Edmunds, special representative; and Noll E. Wehmeyer, advertising manager.

A meeting highlighted by many unique features was concluded here Sunday by the Atlanta territory personnel of Maury Cole Company, producers of Canova food products. An outstanding aspect of the gathering was a united expression of faith in today's business outlook, with special enthusiasm over the prospects of the southeast, which is leading the nation in recovery.

In a long-distance telephone talk, which was picked up by a microphone in his study at his Memphis home, and broadcast through special equipment installed at the Ansley hotel, A. E. Wehmeyer, vice president of the concern, told of the exceptionally bright future in store for this section.

Mr. Wehmeyer cited the recent broad gains in all forms of business, as indicated by the federal reserve reports, and expressed himself as confident that this section would maintain its leadership.

The meeting was conducted under the chairmanship of Roy A. Workman, Atlanta district sales manager. Among the speakers were Noll E. Wehmeyer, advertising manager, and A. H. Edmunds, special sales supervisor, from the Memphis headquarters.

Mr. Wehmeyer pointed out that the company has undertaken an aggressive campaign of sales promotion and advertising at this time, feeling that the nation has progressed so far toward recovery that normal "full speed ahead" should be resumed by producers.

According to reports made at the meeting, the sales of Canova products have been making rapid strides under the impetus of the new conditions, having held their place and actually made gains in relative sales position during the depression years. This unusual circumstance is attributed by Mr. Workman to the fact that food quality overshadows the price of food, particularly in such items as coffee, tea, mayonnaise and spices, which are featured by the concern.

During the meeting a "sample" radio program was brought to the gathered representatives, from the studio of origin, it being a duplicate of the program which is to be heard locally Monday evening at 5:45 over Station WGST.

Following the business session a dinner was served in the Crystal Cave of the Ansley hotel, the menu consisting entirely of dishes incorporating Canova products: Tomato juice cocktail with Canova sauce, peanut butter soup, devilled steak, made with Canova mustard and other Canova seasonings, custard, flavored with Canova nutmeg—and Canova coffee and tea.

The delegates to the meeting left last night for their respective territories.

Murder of Teacher Baffles Authorities

NORTHFIELD, Mass., Sept. 16.—(AP)—An almost complete absence of real clues today baffled police as they sought the mystery slayer of the Rev. Elliott Spear, popular headmaster of Mount Hermon school, who was shot to death in his study Friday night. Checking even meager leads, police communicated with an unnamed southern city where lives a former student, who, it was reported, had had difficulties with the headmaster. Police there, however, said this young man was at his home Saturday morning and could scarcely have been in Northfield at 8:20 p. m. Friday night, when the fatal gunshot charge was fired through the window of the Rev. Spear's study.

Spear, tall, affable headmaster, was slain as he stood up to reach for a book, by a charge of buckshot from a 12-gauge shotgun.

5TH 'MIRACLE' CURE AT GERMAN SHRINE IS VIEWED BY 2,000

MUENSTER, Germany, Sept. 16.—(UP)—The fifth "miracle" cure within two weeks was reported today during the annual pilgrimage from Muenster-Gladbach to the famous Kerkel shrine of the Virgin Mary.

Two thousand pilgrims were said to have witnessed the case of Frau Hochstrass, 62, who was carried into the shrine after five years of total paralysis and suddenly arose to her feet, crying, "Mary aided me."

She walked from the shrine while the congregation sang the "Te Deum," reports said.

Two weeks ago a girl who had been blind from birth was able to see, the pilgrims reported, while a week ago there was a cure of two paralyzed men, one of them a deaf mute.

Church authorities are investigating the reports, which have caused great excitement in this part of Germany.

Following the business session a dinner was served in the Crystal Cave of the Ansley hotel, the menu consisting entirely of dishes incorporating Canova products: Tomato juice cocktail with Canova sauce, peanut butter soup, devilled steak, made with Canova mustard and other Canova seasonings, custard, flavored with Canova nutmeg—and Canova coffee and tea.

The delegates to the meeting left last night for their respective territories.

NOTED HOUSING GROUP VISITS CITY THIS WEEK

Atlanta Planning Officials
To Entertain Experts Headed
by Sir Raymond Unwin.

Atlanta planning officials Saturday were ready to entertain and to gather information from a three-day visit beginning Thursday of the international

MISS A. J. SAMUEL.

housing committee, brought here under the auspices of the National Association of Housing Officials.

Wilbur G. Kurtz, chairman of the Atlanta planning commission; Raymond W. Torres, engineer-secretary of the planning commission, and other members, have perfected plans for the meeting and announced Saturday they expect to profit by the conference.

Automobile tours have been planned in order that the group of distinguished visitors may have a first-hand view of local housing conditions. A delegation from Birmingham is expected to be here also to attend the conference.

Headed by Sir Raymond Unwin, technical advisor to the Greater London regional planning committee, the delegation also will include Miss A. J. Samuel, who is head of the housing department of Birmingham, a growing industrial community of 34,000 persons in the western section of England. Miss Samuel is recognized as

U. S. Securities Issue Still Undersubscribed

WASHINGTON, Sept. 16.—(UP)—Despite the fact the federal government's securities issue still was undersubscribed, treasury officials tonight called the autumn refunding operations "very successful."

Of the total offering of \$1,774,000,000, there have been subscriptions of \$1,044,000,000. The refunding was regarded as a test of the New Deal's credit.

Secretary of Treasury Henry Morgenthau Jr. said subscriptions totaling \$614,268,000 for the \$524,000,000 in treasury certificates maturing September 15 and \$530,000,000 for the \$1,250,000,000 fourth Liberty Loan 4-14 bonds, which were called for October 15, have been received.

MIAMI'S DENGUE FIGHT IS CHECKED BY RAINS

MIAMI, Fla., Sept. 16.—(UP)—Prolonged rains stood in the way today of Miami's attempt to erase a dengue fever epidemic.

Rain has fallen here every day for a week, increasing breeding places of the "house" mosquito, carrier of the tropical malady.

Dr. George N. MacDonell again cautioned housekeepers against failure to destroy breeding places.

Dengue fever cases increased last week, although the peak of the epidemic was reached four weeks ago, when an estimated 6,000 to 10,000 persons were stricken. Since then, Dr. MacDonell has refused to estimate the number of victims.

PLANE CRASH VICTIM GIVEN CHANCE TO LIVE

BERWICK, Pa., Sept. 16.—(AP)—Although his neck was broken in an airplane accident, physicians gave Noll Rose, 54, of Philadelphia, a chance to live.

Rose and Leonard Beale, 28, of Philadelphia, were hurt last night in a crashup in the Berwick airport. They lost their way in the rain and attempted to land. Beale said the controls jammed and the plane dived about 20 feet.

Beale has a fractured ankle and lacerations.

an authority on low-cost housing as are other members of the group.

Atlanta, New Orleans and Knoxville are the only southern cities to be visited in the 36-city itinerary.

Ernest Kahn, formerly manager of the municipal housing enterprises of Frankfurt-on-Main, Germany, also will be among the visitors and several officials of the National Association of Housing Officials, with which Atlanta is affiliated, will accompany them.

The purpose is to make an international comparison of housing conditions and to compile recommendations.

SHIP FIRE PROBES SEEK 2 LIFEBOATS

CoastGuard Craft, Planes
Comb Wide Sea for Missing
Vessels.

ASBURY PARK, N. J., Sept. 16.—(AP)—While a crowd, even larger than last Sunday's gathered today to see the derelict Morro Castle, federal authorities carried on by land and sea a vigorous search for two missing lifeboats launched from the ship's portside during the fatal fire.

Captain George Francesco and Captain William McGuire, of the United States steamship inspection service, sent here to check reports that the ship's lifeboats were in an unsafe condition, continued their examination of the 10 boats either beached or still aboard the Morro Castle.

Boats numbers 1, 3, 5, 9 and 11, lowered from the starboard davits during the holocaust, were at Sea Girl or Spring Lake. Portside boat No. 10 landed on the beach below Sea Girl, numbers 6, 8 and 12, still hung from their davits on the portside of the ship, and No. 7, rested on the starboard side.

Coast guard craft and planes searched the sea for the missing boats. Charges, made at the department of commerce inquiry and being checked by Francesco and McGuire, indicated the lifeboats' air tanks were in a condition which violated the safety regulations.

T. J. Forrester, marine superintendent of the Ward Line, went across to the ship today in the breeches buoy, stayed aboard for several hours and reported on his return that no additional bodies had been found. He said he believed all the victims who actually died on board have been accounted for.

Ward Line officials said a large quantity of jewelry, reported to have been found on the ship, was in the custody of the aids of Martin Conboy, federal district attorney of New York. Conboy visited the ship yesterday and said afterwards he was not certain whether the grand jury which will investigate the disaster will come here to inspect the Morro Castle.

NO ARRESTS IN HAVANA; INVESTIGATOR DECLARES

HAVANA, Sept. 16.—(AP)—Investigation of possible Havana angles of the Morro Castle disaster continued today as authorities emphatically denied reports that there had been arrests in the case.

Ignacio Quesada, chief of technical police, said "Please deny those false reports for me. There have been no arrests in this case anywhere in Cuba."

Now Is the Time to PLANT GRASS

This is the ideal time for sowing grass seed. Develop a rich, green, permanent turf by proper sowing and fertilizing NOW.

Druid Hills Lawn Mixture—5 lbs., \$1.50; 10 lbs., \$3.00; 25 lbs., \$6.25.

TENNIS CHAMPION. "Not only does the mellow flavor appeal to my taste, but I actually feel a 'lift' from a Camel," says Ellsworth Vines, Jr., Pasadena athlete. "Camels have a refreshing way of bringing my energy up to a higher level. They seem to restore my 'pep' and take away that tired feeling. And I know I can smoke all I want for Camels don't interfere with my nerves."

HOUSEWIFE. Mrs. Charles Daly: "My recipe for renewing energy is to smoke a Camel when tired."

ANIMAL COLLECTOR. Frank ("Bring 'Em Back Alive") Buck: "I can smoke Camels all I want because they don't upset my nerves."

SALESMAN. E. W. Davis says: "I'm a salesman, and when tired a Camel revives my energy."

PHONE OPERATOR in New York's Beaux Arts Apartments, Marion Erickson says: "Camels freshen up my energy. They are the mildest cigarette I know."

GOLF CHAMPION. Gene Sarazen, twice winner of the United States Open: "I smoke Camels, too. They always taste good—and never interfere with my nerves."

MOTOR-BOAT RACER. Mrs. Florence Burnham says: "After a hard race, I enjoy a Camel. They're milder. And I notice a quick 'pick up' in energy."

STAR PITCHER. Guy Bush says: "After nine hard innings, there's nothing that lifts up my energy the way a Camel does. I feel freshened up in no time at all."

THEY ALL get a lift with a Camel!

TOBACCO
MEN ALL
KNOW:

"Camels are made from finer, More Expensive Tobaccos—Turkish and Domestic—than any other popular brand."

Men and women in every walk of life report that smoking a Camel offers an immediate and enjoyable way to defeat fatigue and irritability.

It is an important fact to all that Camels do "turn on" one's natural energy. You have doubtless observed this in others . . .

in yourself, if you are a Camel smoker. It is a wholesome and natural "energizing effect," fully confirmed by scientific research.

You'll also find in Camels: mildness...delicacy of flavor...costlier tobaccos!

Smoke as many as you want! Camels never get on your nerves.

Camel's Costlier Tobaccos
never get on your Nerves!

ANN STEPS OUT

By MARGARET GORMAN NICHOLS

WHAT WAS GONE BEFORE: Although Ann Dryden has loved Douglas since childhood days in Baltimore, she tells him that she never loved him when he deserts her at a party for the popular girl Traci. But she has become suddenly wealthy and Doug has been away at college. That said, she might as well meet Nick, younger brother of her employer, John Hamill, head of an advertising agency, and the more she sees of the cardstock Nick the better she likes him. John has never really loved Ann until Nick speaks of her. What subject to heart attacks, but Ann comes to his home to do pressing work and is surprised when his thoughts turn to making Ann his wife. Nick knows now he has been in love with Ann from the first, but speaks to her for John, saying John is shy. Ann's 16-year-old sister, Jean, runs away to go on the stage in New York, and John insists upon advancing the money for Ann to locate her. Ann finds her disillusioned, and John employs her in his office. Both Ann and Nick receive invitations to the wedding of Doug and Gail, and Nick takes her. Ann's father, expecting to be paid soon, is discharged. John asks her to marry him and she consents after telling him she doesn't love him but likes him very much. John's stern, aristocratic mother receives Ann, to tell her that the news of her son's engagement to a working girl was a great shock. John replies angrily. NOW GO ON WITH THE STORY.

INSTALLMENT XXI.

He found Ann at a New Jersey mortuary several hours later sitting still as stone, her face white, surrounded by sympathetic strangers. There had been, even about the newspapers, a quiet, restrained sympathy.

"When she saw Nick, she didn't move. She just looked at him, her eyes filling, tears rolling down her cheeks. "Nick," he said, and he put his arms around her and held her close while she cried.

"She was back at the house on North avenue again. The funeral was over. Telegrams, letters were still pouring in. She stayed in her room alone, trying to reason with herself, wondering how she could take up her life again.

A letter from Mrs. Hamill asked her to come to see her.

"I wouldn't go," her mother said. "She only wants to insult you again."

"I must go," said Ann. "It's only right that I should."

"Why don't you ask Nick about it?"

Nick—Nick had been so wonderful, had attended to everything, had spared her so many of the trying things that had to be done.

"Le wouldn't want me to go," she said, "but I feel that I should."

She got up, dressed in the dark suit, and called a cab. She had to summon all the courage she had to ring the bell at the Hamill home.

The butler admitted her and led the way to the drawing room.

There was no indication on Mrs.

Hamill's face that she had recently experienced the tragedy of losing her son. She looked quite the same to Ann.

"Sit down," she said.

She folded her hands sedately on her lap.

"I know this has been a great shock to you. I didn't attend the funeral because my physician forbade it. Believe me when I say I am sorry for you."

Ann held back tears very near the surface.

"It was horrible."

"I know, but now," she lifted her imperious head, "there is nothing that can be done. You hear the name of Hamill but that—that is your only connection with this family. I suppose," she said, "that you will go back to work again."

"I must."

"You know, of course, that John's will left everything to me."

Ann arose to say: "You must get out of this house, away from this woman!"

"Good-bye," said Mrs. Hamill. "I don't suppose I shall ever see you again. I hope you won't forget that your name is Hamill—I hope you'll do nothing to disgrace it."

Ann got up and went to the door. She met Nick running up the steps.

"Thank God I found you!" he cried. "Your mother told me you were here. Why did you come, Ann, and not tell me?"

They went into the drawing room. Mrs. Hamill looked up.

"I don't know what you've been telling me. You're probably tried to hurt her—as if she hasn't been hurt enough. She's been through enough to kill her."

"I've only been telling her," said his mother, "that her connection with this family is severed. I made it clear to her that John left me his money and that she couldn't come to me when she needed money."

Nick shook his head and smiled.

"Really—you think John left you this money?"

"I'm sorry that I haven't told you. I've been so busy. So many things had to be straightened out..."

He turned to say that John left Ann his money—every cent of it, and an interest in the business. He made an entirely new will.

Mrs. Hamill turned to Ann.

"No use to say anything," said Nick. "She didn't know."

He took Ann's hand and led her out of the house. In the car she said, unable to believe it, "John left everything to me?"

"Yes, he should have told you. He took her hands," said Ann. "You won't have to worry about money now. There is something else I haven't told you. It was secret between John and me. He knew that he couldn't live long. He wanted to marry you—have a little happiness. He wanted to leave you everything."

"He had his happiness such a little while."

Nick started the car and they drove in the country.

"I know it has been a horrible thing," he said, "but you'll have to take up your life again. He wanted you to—to carry on."

"All my dreams," said Ann, "ended in a moment. It is like a nightmare. Yes, I know I must carry on."

"You're a very rich girl."

"I don't know what to do with a lot of money. You'll look out for it for me, Nick?"

"Of course. I've made a decision, too. Things like this—people down to earth. I've had a law practice that I haven't paid much attention to. Now—I'm going into the agency in John's place."

"I'm glad," said Ann.

He turned to her. "The house in Guilford is yours. Wang is still there. Why don't you move there? There's no reason why you shouldn't. John's town car and the chauffeur are there, too. And your new roadster is in the garage."

He stopped the car a moment under a large shady tree.

"You've got to be happy," he said. "John knew it would be this way. He planned everything. You've got to take up your life again, Ann. You're young and rich and beautiful. You've got the world before you."

They drove back to Ann's home and

SALLY'S SALLIES

UNCLE RAY'S CORNER

ADVENTURES OF MARCO POLO. I—ON TO CATHAY!

Two hundred and thirty years before Columbus sailed on his first voyage to the new world, two Italian merchants were on their way to Cathay, a land in eastern Asia which in modern times is known as "China."

Again the journey was made over land. When the five travelers reached Armenia they learned that warfare was taking place in the region. News of this danger led the five to give up the trip, but the Polos went onward. In an account which he later composed, Marco told about a strange land which flowed out of the ground near the Caspian sea.

"On the north," he declared, "is found a fountain from which flows a liquid like oil. Though not used for food, this liquid is good for burning, and for anointing. Camels which have the mangle. The oil keeps on flowing freely, and loads of it are placed on camels to be taken away."

This is the first record known to have been made of the famous oil wells of the Baku district.

The Polos crossed Persia and then passed north of the Hindu Kush, a great range of mountains. Then they went over the mighty desert known as Gobi. Marco did not leave a complete record of the method of traveling, but it is likely that they rode on camels and horses, as well as on ox carts and river boats. After three and a half years they reached the palace of Kublai Khan, the ruler of the great empire of the present city of Peking.

ATLANTAN, WIFE

**Louis Foster, Lawyer,
and Mate, Awakened by**

Louis H. Foster, Atlanta lawyer, and his wife narrowly escaped death early Sunday morning when their residence at 110 Cheshire Bridge road was destroyed by fire.

The couple were awakened by Woodie Powell, a negro servant, just in time to run from the house as the roof fell in.

The fire started shortly after 4 o'clock in the back part of the Foster's seven-room home and gained rapid headway. Powell resides in the rear of the residence and was awakened by the smoke and flames. He rushed to the door and found the door knocked on the door until Foster woke up.

Mr. and Mrs. Foster hurried out in their night clothes and later went to the home of relatives. Nothing was saved from the building, which was only partially covered by

ment answered the call although the home was outside the city limits, but firemen could do little as the house was almost burned to the ground before they reached the scene.

Mrs. Foster said she did not know how the blaze started.

Mrs. R. A. Eubanks on Peachtree Dunwoody road, with Mrs. W. T. Mooney assisting. Rev. F. L. Gilson will bring a helpful talk on "The Flower Show." Plans will be made for the flower show to be held in October. Luncheon will be served after the business meeting.

Habersham D. A. R. Plans Observance Of Constitution Day

Joseph Habersham Chapter D. A. R. meets Wednesday afternoon, September 19, at 3 o'clock at Habersham hall, 270 Fifteenth street. Mrs. C. J. Sheehan, regent, will preside. A program celebrating constitution day and honoring the memory of Lafayette has been arranged by Miss Juanita Chisholm, chairman of patriotic days, and will be presented by her at the close of the business session. Those taking part in the program are Mesdames A. R. Colcord, Fred Self, John Mullin, Will King, who will each relate an interesting event in the life of Lafayette. Mrs. Eugene Smith will give a resume on the constitution. A feature of the afternoon will be the piano selections by Vivian Stanley Brown, a talented young musician of Dublin, Ga., and a grandson of Judge Vivian L. Stanley, of Atlanta and Dublin.

Agnes Scott Club Meets on Tuesday

Atlanta Agnes Scott Club meets Tuesday, September 18, at 3 o'clock at the home of Mrs. Granger Hansell, 1788 Ponce de Leon avenue. Dr. J. R. McCain, president of Agnes Scott College, will be speaker. Mrs. Francis Dyer, retiring president of the Atlanta Agnes Scott Club, will turn the club over to the new president, Mrs. Granger Hansell. Reports will be given by the following committee chairmen: Mrs. Sam Guy, entertainment; Mrs. Fred Cole, J. notification; Mrs. William Trimble, publicity; Mrs. George Griffin, program; Mrs. Robert MacDougall, treasurer.

Hi-Hat Club

The Hi-Hat Club held its initial meeting recently at the home of Miss Dorothy Saul, and present were Mesdames Tillie Bach, Babe Baum, Adele Berner, Sylvia Freedman, Sarah Glusrom, Betty Papouchado, Dorothy Saul, Libby Silverman, and Bernice Smullian. Officers elected for the ensuing term are Miss Dorothy Saul, president, and Miss Babe Baum, secretary-treasurer.

West End Garden Club Division Group To Be Entertained

Mrs. Marvin Smith will entertain members of the garden division of the West End Woman's Club at a garden party on Wednesday, September 19, at 3 o'clock, at her home on Copeland avenue. Mrs. Smith will be assisted in entertaining by Mrs. C. M. Settle, chairman of the garden division, and members of the primrose group, of which Mrs. Oster Thomas is chairman.

Rev. F. L. Gilson, pastor of the Park Street Methodist church, will speak on "Birds and Flowers." A miniature rose show will be held in connection with the meeting, and a prize is offered for the most perfect blooms of baby roses. Members are asked to bring bowls and vases of flowers to be judged for artistic arrangement. Mrs. Fred Allman, flower show chairman, will be in charge of this feature. Mrs. Settle extends a cordial invitation to all members and their friends to attend.

Mrs. Mell Hood has been elected into membership of the club on Wednesday, and Mrs. A. E. Thompson, newly elected chairman of the sub-junior department, outlined many interesting plans for this important new department, composed of girls between the ages of 8 and 14. The new chairman is well qualified to assume her duties and Mrs. Thompson will be assisted by Mrs. Fred Allman as co-chairman.

Mrs. J. W. Simmons presided over the meeting of the executive board and the business session was presided over by Mrs. Charles B. Fife, the president. Mrs. Grady Andrews was in charge of the devotional period in the absence of Mrs. J. C. Cowden, house chairman, announced that the repair work being done on the club had been satisfactorily completed.

U. S. W. V. Auxiliary Opens Fall Season

To Lee-Roosevelt Auxiliary, No. 13, department of Georgia, United Spanish War Veterans, held the first fall meeting recently at the home of Commerce, the president, Mrs. F. M. Snell, presiding. The department president, Mrs. A. O. Woodward, was present. Mrs. Woodward, the retiring national president, is a Georgia woman, and retires from office, carrying with her the love and best wishes of her "official" family. Mrs. Schmidt will be the state chairman for national defense during this administration.

The hospital chairman, Mrs. Daisy Irwin, reported visits made to Ward 1-B, Hospital 48, each month, when nurses were distributed to each patient. A bingo party was given the patients by the auxiliary. A program was also sponsored by Mrs. A. B. Harrelson. Other fall activities will include a rummage sale in September and a luncheon in October. Mrs. Emma Pate, chairman of ways and means, Mrs. Stella Fike, past president, of Helen Gould Auxiliary, and Mrs. Mary Hartson, of Theodore Roosevelt Auxiliary, were visitors at the recent meeting.

Mr. Mrs. Kilpatrick Honor Bridal Couple

Mr. and Mrs. Martin E. Kilpatrick were hosts at a special party Sunday afternoon at their home on Collier road in compliment to Miss Nancy Kamper and Henry Miller, whose marriage will take place Saturday afternoon, September 22, at St. Luke's Episcopal church. Grapes and foliage decorated the punch bowl, which centered the lace-covered dining room table, and was flanked by yellow burning tapers in silver candlesticks and cornucopias holding yellow mints. Guests included only members of the wedding party and a few close friends of the honor guests. A round of other social affairs are being given this week in compliment to this popular couple. Attractive visitors attending the pre-nuptial parties are Miss Ann Harlan, of Florence, Ala., and Miss Lucy Lanier, of West Point, who are visiting Miss Kamper, and will act as bridesmaids in the wedding.

O. E. S. Luncheon

Members of Queen Esther Chapter No. 222, O. E. S. will sponsor a luncheon Tuesday, September 18, at the residence of Mrs. Warren Granda, 1208 North avenue, N. E. Those desiring to play bridge or other games may do so. Prizes will be given and the price is 35 cents. For further information, phone Mrs. Clifford Wheelock, the chairman, at Walnut 8779, or Mrs. Sara Granda, at Jackson 7298-W.

O. E. S. Worthy Grand Matron Visits Chattahoochee District

MISS IRENE ARDEN, OF STATESBORO.

Miss Irene Arden, of Statesboro, worthy grand matron of the grand chapter of Georgia Order of the Eastern Star, will make her official visit to the Chattahoochee district No. 2 during this week. Her itinerary includes her visits on September 17 to Liberty chapter No. 147 in Griffin; on September 18 to Jonesboro chapter No. 174, in Jonesboro; on September 19 to Hapeville chapter No. 170, in Hapeville; on September 20 to Fulton chapter No. 181, in East Point, and on September 21 to Ben Hill chapter No. 226, in Ben Hill.

Mrs. Westmoreland Calls Meeting Of Oglethorpe Woman's Board

Mrs. Willis Westmoreland, president of the woman's board of Oglethorpe University, has returned from a summer spent abroad, and is engaged in mapping out the program and policies of her administration as president of this outstanding organization. She has organized a special promotion committee consisting of the past presidents of the board, the honor society presidents and a group of former vice presidents, thus bringing together outstanding leaders among women interested in educational and cultural movements. This committee includes Mesdames Lee Ashcraft, Katherine Hillier Conner, E. Rivers, Haynes McFadden, and William Fisch, past presidents, and Mesdames Samuel M. Imman, John K. Otley, Charles A. Conklin, Frank M. Imman, Hugh Bancker, Wilmer Moore, William T. Henley and R. F. Ulmer and represents some of the leaders who have made the woman's board of Oglethorpe University among women's organizations, which has been upheld as a model for similar groups allied with other universities and colleges. Mrs. Westmoreland has invited Dr. Thornehill Jacobs, president of the university, to meet with this committee at her home at 417 Tenth street, N. E., Tuesday afternoon at 3 o'clock. Plans for future growth and development of the board will be decided upon; Dr. Jacobs will stress the value of the board to the university and report the need that now exists for a new dormitory, as the registration of the freshmen class has crowded out the upper-classmen who have not previously made reservations.

Miss Turner Honored By Miss Green

Miss Ethel Green entertained at a bridge party Saturday afternoon at her home on Courtney drive, in Morningside, honoring Miss Dorothy Elizabeth Turner, whose marriage to Dr. H. B. Turner, pastor of the Druid Hills Baptist church, will be held on Sunday, September 23, at 11 o'clock this morning. The home was effectively decorated with summer flowers and a color scheme of pink and white was tastefully carried out. Guests included Mesdames Dorothy Turner, honor guest; Hazel Mindling, Hortense Brown, Louise Wilson, Frances Gorman, the daughters of Mary Will Crockett, Ethel Bennett, Pauline Barnhart, Elizabeth Jenkins, Caroline Hogue and Helen Haspe, of Tampa, Fla.; Mesdames Lillian Quillian, H. S. Rausuke, James Weaver, Lynton Ramsey, W. K. Burton Jr., Clyde L. Turner, Miss Green was assisted in entertaining by her mother, Mrs. Jackson Green, and her sister, Mrs. Charles H. Battle.

Mrs. Cosgrove Honored

Mr. and Mrs. W. L. Quinlen entertained at a surprise party and handkerchief shower Thursday evening at their home, 678 Colquhoun avenue, N. E., in honor of their niece, Mrs. Jimmie Cosgrove, of Chicago, Ill., who was their guest. Roses and various colored flowers were effectively arranged in the house. The dining table was overlaid with a lace cover and in the center was a beautiful cake, embossed in pink and white. On each corner of the table were silver candlesticks holding white tapers, tied with pink and white ribbon.

Present were Miss Elizabeth Grant, Mrs. Jimmie Cosgrove, Mrs. R. D. Bame, Mrs. Annie Mullins, Mr. and Mrs. F. Drake, Mr. and Mrs. F. A. Oglesby, Mr. and Mrs. F. C. Boston, Mr. and Mrs. W. Thayer, Mr. and Mrs. Sam Hawkins, Mr. and Mrs. A. B. Rogers, Mr. and Mrs. A. H. Wooten, Mr. and Mrs. W. L. Quinlen and Ben Harrison.

Clara Heinrich O. E. S.

Clara Heinrich Memorial Chapter No. 263, O. E. S., meets Friday, September 21, at 8 o'clock in Joseph C. Greenfield lodge on Moreland avenue. Mrs. Marcia Everett, associate grand matron, will be honor guest and at the close of meeting the star points will have a cakewalk with Eastern Stars are invited.

Miss Janet Elsas Weds Mr. Elsas In N. Y. City

NEW YORK, Sept. 16.—Miss Janet Elsas, daughter of Mrs. Adolph Elsas, of Lawrence, Long Island, was married yesterday to Clarence Elsas of New Orleans, La. Rabbi Isaac Landman performed the ceremony, which took place in the Italian garden of the Ambassador hotel in New York city. A buffet and dance for several hundred guests followed.

The bride wore an Empire gown of white satin and a tulle veil, with coronet of pearls and orange blossoms. She carried a bouquet of calla lilies. Two sisters of the bridegroom, Mrs. Louis Salenstein, the former Dorothy Elsas, of Milwaukee, and Mrs. Morris Mayers, the former Miss Roslyn Elsas, of Woodmere, Long Island, were matrons of honor. They wore frocks of gold lame. Miss Ruth Seidman, of Cedarhurst, Long Island, maid of honor, and the Misses Louise Mettler, of Lawrence, Long Island, and Elaine Moos, of Woodmere, Long Island, bridesmaids, wore silver lame gowns. The attendants carried bouquets of white flowers.

Edwin Weller Jr., of Woodmere, was best man, and the ushers were Gene Aschaffenberg, of New Orleans, La.; William Elsas, of Atlanta, Ga.; Morris Mayers, of Woodmere; Mettler, of Lawrence, and Miller, of Far Rockaway. After a wedding trip to Florida and Mexico City the couple will make their home in New Orleans.

Home Hygiene Class Is Being Conducted

Mrs. J. Bonar White, chairman of the home hygiene and care of the sick committee of the Atlanta chapter of American Red Cross, announces that under the auspices of the American Red Cross and the Smith-Hughes vocational fund, classes in home hygiene and care of the sick will be conducted in the home hygiene classroom, 201 Peachtree street, N. E., and are open to women and girls in Atlanta. The classes are free of charge. In the event that it is impossible for groups to attend classes in the Red Cross classroom, the instructor will arrange to hold classes in community centers.

These lessons do not take the place of a course of nursing, but they will instruct a woman how to keep well, how to create wholesome environments, to check the spread of disease by early recognition of symptoms, enabling measures to be taken to banish sickness by eliminating the causes and teach mothers how to help themselves and their children become a happier, a healthier race. The classes are free of charge. In the event that it is impossible for groups to attend classes in the Red Cross classroom, the instructor will arrange to hold classes in community centers.

Mrs. Westmoreland has invited Dr. Thornehill Jacobs, president of the university, to meet with this committee at her home at 417 Tenth street, N. E., Tuesday afternoon at 3 o'clock. Plans for future growth and development of the board will be decided upon; Dr. Jacobs will stress the value of the board to the university and report the need that now exists for a new dormitory, as the registration of the freshmen class has crowded out the upper-classmen who have not previously made reservations.

"Four Bottles Helped Me"

"My four children were born close together. I lived on farm while lots of work to do and I got all run down so I could hardly go. Four bottles of your Vegetable Compound helped me wonderfully. Twice since then I had to take several bottles to regulate and strengthen me. I take care of my house and children, do

Cardinals Take 7 of 10 Games From Giants and Butcher Lead

MARTIN'S HOMER DEED LONG BLOW IN FINAL FRAY

New York's Margin Reduced to 3 1-2 Games in National Race.

NEW YORK, Sept. 16.—(AP)—Before the largest crowd that ever jammed into the Polo Grounds, 62,573 pennant-hungry fans, the Cardinals and the Dean brothers exercised their charm over the Giants today to win both games of a double-header, 5 to 3 and 3 to 1.

The second game went eleven innings in a struggle between Paul Dean and Carl Hubbell before Popper Martin's home run in the seventh and sent the Cards off to victory. A four-run rally in the seventh won the opener for the Cardinals, although he went out for a pinch-hitter in that inning.

LEAD CUT.
The Cards thus reduced New York's lead to 3 1-2 games in the pennant chase with 12 more games to play for the Giants and 14 for St. Louis. In the Dean brothers' personal feud with the league-leaders it gave each a record of six victories out of seven. The twin triumph of the Cards the series, 3 to 1.

The Giants led for six innings of the opener behind Roy Parmelee's pitching, building up a 3-0 lead when Gus Mancuso socked a homer in the second and Mel Ott hit his 34th circuit blow of the year in the fourth. Successive singles by Delancy, Orsatti and Pinch Hitter Davis started the Cards on their winning rally. Al Smith came in and retired one batter, Hal Schumacher followed him and passed Martin and Rothrock, forcing in a second run. Manager Frankie Frisch then singled and the Cards were ahead, Dolf Luque finished the game for the Giants and wild-pitched Rothrock home with the final run in the ninth.

YOUNGER DEAN.
The second clash again saw the Giants take the lead when Joe Moore tripled and scored on Hughey Critz fly in the third. They couldn't hit the younger Dean effectively after that and Jim Collins tied the score off Hubbell in the seventh with his 33rd home of the year. Martin's homer broke up the duel in the eighth and the Cards added an extra run on Rothrock's single, Frisch's sacrifice and Medwick's one-bagger.

Disay Dean gained his 20th victory of the year and Paul his 17th, the latter giving only six hits in the long route. Before the game Joe Medwick, St. Louis outfielder, was presented with a diamond ring by admirers from Catara, N. J., his home town.

Nashville, New Orleans Open Series Tuesday

Vois Favored by Odds of 6-5 in Opener; Milnar To Face Speece.

MEMPHIS, Tenn., Sept. 16.—(AP)—Nashville and New Orleans, champions in the first and second halves, respectively, of the Southern Association season that ended today, headed toward Tennessee's capital city, where a five-game play-off series for the pennant is scheduled to start Tuesday.

Two games will be played in Nashville and then the teams move to New Orleans to wind up the series. To the victor goes the right to manage the Texas League champion in the Dixie Series.

TAKE YOUR CHOICE.
Reports from Nashville are that the Pelicans have won the odds of 6-5 to 5 and take your choice on the series winner. For the opening game, however, the Vois have been established as favorites.

A comparison of the two teams shows the Pelicans outclassing the Vois in fielding, but the Nashville club has shown more power at bat. In pitching the teams are about evenly matched.

UNDER GILBERT'S MANAGEMENT.
Under Gilbert's management the Pelicans have won the pennant three times in the Southern Association. They conquered the field in the second half in 1933, defeated Memphis in a playoff and went on to triumph over San Antonio in the Dixie Series. In three other clashes with Texas teams in the Dixie League Gilbert's forces lost to Ft. Worth, Dallas and Wichita Falls.

Nashville hasn't won the pennant since 1929 when Roy Egan managed the Vois home first, starting and finishing the season with the same 14 players.

VOIS LEAD HITTING.
On the basis of latest official records, Nashville leads the league in batting with a .298 percentage, three points more than New Orleans. The Pelicans, however, hold an eight-point margin over the Vois in fielding with a mark of .979.

For the season, Nashville has a big edge over New Orleans in contests between the two teams. The Vois have defeated the Pelicans 13 times in 22 games. Speece hurled four of the victories for his club, while Milnar triumphed in the same number for the Louisianans.

After games at Nashville Tuesday and Wednesday, the teams will move to New Orleans where the schedule calls for games Friday and Sunday. A fifth game, if necessary, will be played on Monday.

Manager Richbourg plans to use Hal Stafford, a young rookie hurler who whipped the Pelis four times, in the second contest, while Gilbert intends to rely on the veteran, Fred Johnson.

RODFO TRAINING MAY AND BROWN AGAINST DAVIS

Chewacki Likely To Find Trouble Lurking in Person of Hewitt.

MEMPHIS, Tenn., Sept. 16.—(AP)—The training Orville Brown had as a member of a rodeo troupe is expected to stand him in good stead against the antagonistic Carl Davis in the feature match of Henry Hewitt's wrestling program Tuesday night.

While Brown is rough and ready, his long suit in the grappling game is based on scientific procedure. But just how much science Brown will be able to use against Davis, who causes opponents to fly into a rage at his methods, will be interesting to the city audience.

CHIEF CHEWACKI. The wild aborigine, who is known as the "Prairie Flower" because of his hair, is expected to have his hands full in the semi-main event. His opponent is Whitey Hewitt, inventor of the hangman's noose hold. Which is exactly what it implies.

Paul Harper, once one of the leading favorites with Atlanta fans, won the 30-minute opener. The fans are going to find the Tuesday evening program jammed with action. Tickets are on sale at the Piedmont Auditorium.

Southern League
BIRMINGHAM, Sept. 16.—(AP)—The Southern League season ended today with a 5-3 victory by the Pelicans over the Vois in the first game of the series.

JOE HUTCHESON LEADS HITTERS, ANNA SLUGGERS

Atlanta Prince Tops Homer Division With 17; Kelley Ace Pitcher.

MEMPHIS, Tenn., Sept. 16.—(AP)—Big Joe Hutcheson is the 1934 batting champion of the Southern Association of baseball clubs.

Statistics, compiled tonight at the close of the season show the Memphis outfielder with an average of .348.

Paul Weintraub and Hank Lieber, star Nashville batsmen and both dangerous contenders for the individual batting leadership, left the way open for Hutcheson when they went up to the majors.

Hutcheson made 163 hits in 468 times at bat, and scored 87 runs. Pack Hamel, Memphis, was second in the standing, averaging .322. Frank (Crump) Waddy, who has since left professional baseball, led the league last year, batting .361 for Chattanooga.

Prince Oans, of Atlanta, became the home run king by virtue of his 17 circuit slugs. Walter French stole 34 bases to lead in that regard.

Harry Kelley, Atlanta and formerly Chattanooga, finished the season with 23 victories and 11 defeats. Byron Speece, Nashville, won 22 and lost 8. Johnson, New Orleans hurler, had the best average, however, .800. He won 20 and lost five games.

Buckhead Offers Six Light-Heavies
The Buckhead arena has changed its regular program from Tuesday night to Wednesday night, starting this week.

The management of the Buckhead arena is to be congratulated for securing six of the best light-heavyweight wrestlers now appearing in the south to be on this all-star program. The matches are as follows: Young London vs. John Belmont; Powell vs. Tarnan Jordan; and Chipewa Charley vs. Hans Von Buesing.

Popular prices will prevail, with plenty of free parking space for our patrons. The fans that turn out for this program at Buckhead Wednesday night will be well pleased with this card.

CRACKERS
Continued From First Sports Page.
Miano legged it on around third and into home accompanied by the huzzas and hat waving of an appreciative crowd.

Ralph McGill's Football Review

At left halfback are "Fieldmouse" Pearson, who played regularly the last of the past season; Fleet Clark and Sophomore Wyatt Brown.

Ralph Ruch, regular fullback of last season, brings his 170 pounds back for that position. Paul Tate, reserve last fall, is also back.

This is just about the entire Sewanee squad. Rare is the man who does not get to see action if he reports at Sewanee.

The Tigers will be on Georgia Tech's football schedule next fall. Time was when the Tigers used to regard Tech and Tennessee and other major teams of today as teams which could be taken in stride without a great deal of effort.

Sewanee keeps hoping—and fighting. They have a great and justified pride in their university and their record. They refuse to drop from the lists and play teams from schools with student bodies as small as their own.

They travel to almost every game. They rarely win one. But, as aforesaid, they keep hoping and fighting. Which is enough to say about any team. Atlantans may look forward to seeing them next fall.

In with a hard single to left. It was the Prince's one-hundredth run batted in for the season, by the way.

The Prince was out at second, trying to stretch the hit into a double. Harry Taylor followed with a vicious one-bagger to right, but Wright made the last out of the inning.

A nifty fielding play was contributed by Al Cuccinello, the Vois' second baseman and brother unto Tony Cuccinello, the Brooklyn Dodgers, who plays the same position. Cuccinello went back of second in the fifth to ensure Lindsey's drive with his glove hand and then made a backhand flip to Rodda to force Palmisano.

"PIP" MCKEE COLLIDE.
"PIP" Koehler and McKee had a near serious collision in right field in the fifth while going after Dugan's pop fly. Both players were rather badly shaken up, but neither was hurt. Koehler held onto the ball.

Some of the players, Taylor, Koehler and Oans included, plan to win here.

MLARNIN, ROSS HOPE FOR BEST FROM WEATHER

Welter Title Fight Slated Tonight in Madison Square Bowl.

NEW YORK, Sept. 16.—(AP)—The humor and the brave front displayed today from prize fight circles hemming in Barney Ross and Jimmy McLarnin, a couple of warriors fast growing old trying to fight for the welterweight title.

It was one thing to scoff almost two weeks ago at the rain that makes the flowers grow, toosing off the weather with the brave claim that tomorrow is as good as today. It was another thing entirely to face the hazards that still threaten the match, now set hesitantly for tomorrow night.

"It's all right with me," said Ross wearily. "I'm getting used to this hitch-hiking training now and one week is as good as another. I hope I can get back to Chicago in time for Christmas shopping."

McLarnin, a quiet, introspective Irishman by nature, has become as calm as a lake at twilight, and just as deep. He just keeps looking out of windows and watches it rain, and thinks what time he goes to the gym this day. Instead of retiring after this fight, as he is expected whether he wins or loses, he may be eligible for a pension.

In the most serious condition of all is Mike Jacobs, promoting the show for the New York American Christmas and relief fund out in Madison Square Garden's bowl on Long Island.

YOUR PROMPT ANSWER MAY MEAN \$1,000.00 CASH AND CHEVROLET SEDAN FOR YOU!

How many names of cities on this map can you find in which the letter "N" appears, like Atlanta, Jackson, Naples, etc.?

CUT ALONG THIS LINE

YOU MAY WIN BOTH \$1,000.00 CASH and Chevrolet Sedan Extra Prize for Promptness

No subscription is necessary to win a prize. If your answer wins First Prize and you have sent no subscriptions to Southern Cultivator, you will win \$350 offered under Schedule "C" Prizes.

\$350.00 offered in Schedule "B" will be awarded the winner of First Prize provided \$2 worth of subscriptions to Southern Cultivator are sent.

\$1,000.00 offered in Schedule "A" will be awarded the winner of First Prize provided \$5 worth of subscriptions are sent.

Subscription rates: 1 year, 25c; 3 years, 50c; 6 years, \$1.00.

The Chevrolet Sedan will be given as an Extra First Prize for Promptness to Winner of First Prize in either Schedule "B" or Schedule "A" provided answer has been qualified with subscriptions mailed WITHIN 10 DAYS. Thus, if you are prompt you may win either \$350.00 Cash or \$1,000.00 Cash, also the Chevrolet Sedan.

The Schedule of Cash Prizes

Prize	Amount
First Prize	\$1,000.00
Second Prize	\$350.00

Gehrig and Waner Tied for Bat Lead

By the Associated Press.

Paul Waner, kept inactive by rain, went into a tie with Lou Gehrig for the Big Six lead yesterday when the Yankees' lineup failed to climb in four attempts and chopped three points off his average. All the other Big Six members except Kiki Cuyler also lost ground. Kiki had a big day with six hits in 10 times up during a double-header and increased his mark by five points to .344. Heinie Manush dropped behind Charley Gehrig into fourth place when he lost three points to Gehrig's one. The standing:

Player	Team	Points
Paul Waner	Pittsburgh	142
Heinie Manush	Pittsburgh	142
Charley Gehrig	Pittsburgh	138
Kiki Cuyler	Pittsburgh	138
Heinie Manush	Pittsburgh	138
Charley Gehrig	Pittsburgh	138
Kiki Cuyler	Pittsburgh	138
